Announcement of Webinar on the IFRT's initial Recommendations

The IANA Naming Function Review Team (IFRT) has announced that it is in the final stages of completing its Initial Report. The IFRT will be holding a webinar for the community regarding one of their proposed recommendations that would require an amendment to the IANA Naming Functions Contract between ICANN and PTI. This amendment may be of particular interest to country code top-level domain (ccTLD) and generic top-level domain (gTLD) registry operators.

Webinar Information

- Date: 29 September 2020
- Time: 17:00 – 17:30 UTC
- Webinar Link: https://icann.zoom.us/j/96824197988?pwd=TGpISnFnck1TblpQdkthd0lHUzRxdz09
- Passcode: IFRT_09/29

PURPOSE OF THE REVIEW

The IANA Naming Functions Review (IFR) is one of the new accountability mechanisms created as part of the IANA stewardship transition to ensure that Public Technical Identifiers (PTI) meets the needs and expectations of its naming customers.

WHERE ARE WE IN THE PROCESS?

OPPORTUNITIES TO PARTICIPATE

Become a IFR Team Observer

- Observe past IFR Team meetings, click here
- Share your input with the IFRT: via their public email list input-to-IFRT@icann.org. All emails sent to input-to-IFRT@icann.org are archived and may be viewed here.
- Subscribe to the IFRT mailing list as an observer to receive invitations to observe live team meetings: send a request to IFR@icann.org
