Review Phase

BACKGROUND AND PURPOSE

The Nominating Committee (NomCom) is an independent committee tasked with identifying and selecting individuals for leadership positions. The ICANN Bylaws call for NomCom to make a specified number of appointments to the ICANN Board of Directors (Board), the Generic Names Supporting Organization (GNSO) Council, the Country-Code Names Supporting Organization (ccNSO) Council, and the At-Large Advisory Committee (ALAC). For more information on the NomCom, click here.

The goal of the review, to be undertaken pursuant to such criteria and standards as the Board shall direct, shall be to determine (i) whether that organization, council or committee has a continuing purpose in the ICANN structure, (ii) if so, whether any change in structure or operations is desirable to improve its effectiveness and (iii) whether that organization, council or committee is accountable to its constituencies, stakeholder groups, organizations and other stakeholders.
