gTLD Marketplace Health Index

This is the homepage for the gTLD Marketplace Health Index project.

The gTLD Marketplace Health Index originated from the cross-organizational ICANN Key Performance Indicator (KPI) Dashboard. The “gTLD Marketplace Health Index” will further ICANN’s goal (number 2.3) of supporting the evolution of the gTLD marketplace to be robust, stable and trusted. The index analyzes the overall health and diversity of the global gTLD marketplace.

ICANN published the gTLD Marketplace Health Index (Beta) for public comment in July, 2016. ICANN will now work with a community Advisory Panel to refine the Index in preparation for publishing the version 1.0. The following is a proposed timeline for this process. ICANN plans to post updated data for the metrics included in the gTLD Marketplace Health Index (Beta) until work on version 1.0 is complete.

---

Complete these tasks to get started

- **Edit this home page** - Click *Edit* in the top right of this screen to customize your Space home page
- **Create your first page** - Click the *Create* button in the header to get started
- **Brand your Space** - Click *Configure Sidebar* in the left panel to update space details and logo
- **Set permissions** - Click *Space Tools* in the left sidebar to update permissions and give others access

---

Welcome to your new space!

Confluence spaces are great for sharing content and news with your team. This is your home page. Right now it shows recent space activity, but you can customize this page in anyway you like.
