6. Presentation on Middle East and Adjoining Countries (MEAC) Strategy 2021-2025 - Hadia Elminiawi, MEAC WG Member (5 minutes)

7. Policy comment updates - Jonathan Zuck, Evin Erdodu and all (25 minutes)
Recently Ratified by the ALAC

Proposed Final Report of the New gTLD Auction Proceeds Cross Community Working Group
Executive Summary TBC

While several Members of the ALAC Auction Proceeds team originally preferred Mechanism B - where ICANN worked with a non-profit organization already adept in the evaluation, selection and the allocation and distribution of grant funds - ALAC consensus was arrive at for Mechanism A. (Mechanism A allows outsourcing if viewed as advantageous, and in fact ICANN often outsources parts of its responsibilities which are not core to overseeing its Bylaw-mandated responsibilities. Thus Mechanism A could end up being comparable to Mechanism B, but provided more management flexibility in deciding how the varying aspects of the project would be carried out).

The ALAC notes that presumption of the independent panel, with no connection to or control by either ICANN Org or the ICANN Board (preferably contracted to a suitable non-profit or a set of experts in the field of grant selection and allocation) is a critical part of this decision and the ALAC would strongly object and withdraw its support if that condition changes.

"At-Large Valentine" submitted to the ICANN Board regarding Proposed Amendment 3 to the .COM Registry Agreement
Executive Summary TBC

An “At-Large Valentine”, regarding the Proposed Amendment 3 to the .COM Registry Agreement, written in good faith and good humor, was submitted to the ICANN Board on 13 February 2020. Jonathan Zuck, ALAC Vice Chair for Policy and CPWG Co-Chair, drafted the letter on behalf of At-Large. ALAC Members and At-Large community members reviewed and approved the letter during the CPWG meeting on Wednesday, 12 February 2020.

The ALAC welcomed the LOI between Verisign and ICANN as a commitment to expand efforts to identify and promulgate best practices by contracted parties to mitigate DNS Abuse. While there are many whose efforts exceed those of others, the At-Large Community believes that even more can be done both in terms of best practices and in terms of bringing along those whose practices are not the best.
