**About ccTLD News**
ccTLD News Sessions have an excellent collection of case studies, statistics, new developments, trends and more. The ccTLD News Sessions have been a part of the ccNSO Members Meetings for several years and has provided a global platform for both experienced and new people to meet, share experiences and discuss ccTLD-related aspects. The sessions are organised by the ccNSO Meetings Programme Committee (MPC). The ccTLD News Sessions are open to all.

**Joint session: ccNSO & GAC**  
**Tuesday, 8 March 2022 | 13:00-14:00 UTC**

**Session Recordings**

**About this session:** The Governmental Advisory Committee (GAC) constitutes the voice of Governments and Intergovernmental Organizations (IGOs) in ICANN’s multi-stakeholder structure. During this joint meeting, the following topics are expected to be discussed:

- ccNSO Policy Development: status and next steps with respect to ccPDP3-RM and ccPDP4-IDN. The goal of the ccPDP3-RM working group is to report on and recommend a policy for a review mechanism with respect to decisions pertaining to the delegation, transfer, revocation and retirement of the delegated Top Level Domains associated with the country codes assigned to countries and territories listed in the ISO 3166-1 and within the framework of the ccNSO Policy Development Process. The ccPDP4 Working Group defines the criteria, process, and procedures for (de)selecting Internationalised Domain Name country code Top Level Domain strings (IDN ccTLDs) associated with the country codes assigned to countries, territories or other areas of geopolitical interest listed in the ISO 3166-1 standard and within the framework of the ccNSO Policy Development Process. The results of this ccPDP4 will eventually replace the IDN ccTLD Fast Track Process. Read more [here](#).
- ccNSO & DNS Abuse: current status, and an invite to learn more about the next steps during the ccNSO & DNS Abuse session later the same day.

**ccNSO DNS Abuse Session**  
**Tuesday, 8 March 2022 | 14:30 - 16:00 UTC**

**Session Recordings**

**Session Chair:** Alejandra Reynoso (.gt)

**About this session:**

This session builds on previous work during ICANN72 and a community and Council workshop in November 2021, when ccTLDs and the broader community suggested areas the ccNSO should get involved in with respect to DNS Abuse. After the November workshop, an ad hoc Committee under auspices of the ccNSO Council started working on a proposed roadmap, which includes enhanced sharing of information and practices, in line with the ccNSO role. During ICANN73, the ad hoc Committee will present the roadmap, consult the ccTLDs present, and discuss next steps. Depending on the community feedback, the ccNSO Council is expected to adopt the roadmap at their meeting on Thursday, 10 March 2022.
ccNSO Governance Session
Tuesday, 8 March 2022 | 16:30-18:00 UTC

Session Chair: Sean Copeland (.vi)

About this Session:
During this session, the ccNSO Guideline Review Committee (GRC) will alert the ccNSO membership to the voting on the new ccNSO internal Rules, which - once adopted by the ccNSO members - will replace the ccNSO 2004 internal Rules. Voting is expected to begin after ICANN73. The new Rules will have a direct impact on the governance structure of the ccNSO, specifically on the respective roles and responsibilities of the Council and ccNSO membership.
In addition, the GRC will launch the discussion on the ccNSO Conflict of Interest (COI) rules. The aim of the consultation is to seek input from the ccNSO community and other stakeholders on the scope and ccNSO relevance of the COI rules. Finally, GRC will expand on its changed mandate.

Question & Answer Session with ccNSO-related ICANN Board members and others
Thursday, 10 March 2022 | 13:00-14:00 UTC

Session Chair: Jordan Carter (.nz)

About this session:
The ccNSO-appointed ICANN Board members have been invited to attend a question and answer session and to share their experiences as ICANN Board members. Other ICANN Board members with an association to the ccTLD community have also been invited to attend.

ccNSO Council
Thursday, 10 March 2022 | 14:30-16:00 UTC

About this session:
Topics for discussion will include next steps following the ICANN73 ccNSO & DNS abuse session, the roles and responsibilities of the various members of the ccNSO Council and the election of the ccNSO leadership team consisting of one Chair and two Vice Chairs. Additional topics for the ccNSO Council meeting will be made available on the ccNSO Council workspace.
