I hope that was helpful.

13:35:15 From Sivasubramanian M to Everyone:
How is a pilot organized? Is it like a simulation or a scaled down implementation, is it organized like "drop it if the pilot does not work" or as a definite first step? What are the usual timelines, and the scale of budgetary allocation for pilots?

13:35:33 From Roberto Gaetano - NextGen Mentor to Everyone:
It was @Xavier

13:35:46 From Cheryl Langdon-Orr to Everyone:
Definably so @Xavier

13:35:55 From Ahmad Aghar - ICANN73 Fellow to Everyone:
good questions @Siva

13:36:28 From Sivasubramanian M to Everyone:
Thank you Ahmad

13:38:02 From Claudia Ruiz - ICANN Org to Everyone:
When submitting a question or comment that you want me to read out loud on the mic, please start with a <QUESTION> and end with a "</QUESTION>" or <COMMENT> </COMMENT>. Text outside these quotes will be considered as part of "chat" and will not be read out loud on the microphone.

13:38:56 From Sivasubramanian M to Everyone:
like you build one of the rooms instead of the house, see if it is a good idea to build a house?

13:39:19 From Dave Kisoondoyal (Mauritius) - ALAC to Everyone:
Does the Planning Prioritization Framework is an on-going process?

13:40:02 From Xavier Calvez - ICANN Org to Everyone:
The pilot is going to look at a reduced scope to make it a bit easier (though that scope is "all board-adopted recommendations from reviews and is quite big). It will be a learning experience for all of us, and it will lead to refining the prioritization framework that will be carried out during the next planning cycle.

13:41:16 From Vanda Scartezini - Brazil to Everyone:
thanks for the explanation

13:42:04 From Sivasubramanian M to Everyone:
Why not go ahead with implementation with a built in reset button? That should make the organization far more efficient, and would surprisingly save costs, even if you count implementations dropped.

13:42:32 From Victoria Yang - ICANN org to Everyone:
Dave, the prioritization step will be part of the annual planning process starting with Fy24 planning. We recommend you to review page 16 of the draft framework: <https://community.icann.org/display/projfinadhocws/ICANN+Planning+Prioritization+Framework+Project?preview=/44958981/186784272/Draft%20Planning%20Prioritization%20Framework%20Version%201%20Published%2028%20Feb%202022.pdf>

13:42:56 From Bill Jouris to Everyone:
@Siva Perhaps more like building one piece of furniture before starting on the whole house full.

13:43:01 From Victoria Yang - ICANN org to Everyone:
There is a process flow chart, hopefully that helps with the overall planning process understanding

13:44:14 From Heidi Ullrich - ICANN Org to Everyone:
Becky's blog on ICANN's Draft Planning Prioritization Framework: <https://www.icann.org/en/blogs/details/now-published--icanns-draft-planning-prioritization-framework-02-03-2022-en>

13:45:25 From Dave Kiskoondoyal (Mauritius) - ALAC to Everyone:
I do the share the same concern as Siva.

13:45:33 From Cheryl Langdon-Orr to Everyone:
Thanks @becky

13:45:39 From Cheryl Langdon-Orr to Everyone:
take that as a comment

13:46:27 From Cheryl Langdon-Orr to Everyone:
Welcome @Giovanni

13:46:31 From Becky Nash (Org) to Everyone:
Thank you for your comments and we have made note of them.

13:47:46 From Olivier MJ Crepin-Leblond to Everyone:
@Siva -- The thing is -- there were in excess of 200 recommendations and tracking WAS required because the sheer complexity of ICANN makes it difficult to track. The Reviews are bylaw-mandated and are a key part of ICANN's accountability processes so it is great to see that there is now a proper process pipeline for them.

13:49:04 From Xavier Calvez - ICANN Org to Everyone:
@Siva: the objective of introducing a process to prioritize is to improve the efficiency of ICANN's work.

13:49:17 From Ahmad Aghar - ICANN73 Fellow to Everyone:
I second @Siva's comment: taking too much time affects our flexibility and ability to address issues effectively on time - not to say it is easy, as @olivier mentioned

13:49:37 From Chokri Ben Romdhane to Everyone:
in all cases Review process should be independent from technical sides

13:51:03 From Sivasubramanian M to Everyone:
@Olivier, it is all impressive, the amount of work done by the community and [icann.org](https://www.icann.org) in these exercise is commendable -- truly commendable -- but there is something amiss, which relates to the time taken to go through all the processes, which mirror governmental processes that are endless

13:52:06 From Sivasubramanian M to Everyone:
We have had an exercise to empower the community, may be we need one to empower staff and the Board, to empower them to make quick decisions, even if it amount to the org goofing up on half the year's budgeted spending.

13:52:13 From Sivasubramanian M to Everyone:
in the interest of efficiency

13:52:59 From Sivasubramanian M to Everyone:
The point is that these timelines are way too slow as against the ultra-swift pace at which new developments occur in the DNS and the global Internet

13:53:15 From Cheryl Langdon-Orr to Everyone:
Comments only at this stage

13:53:19 From Sivasubramanian M to Everyone:
... even if it amounts to ...

13:53:49 From Sivasubramanian M to Everyone:
that part of the comment is to say that we can

13:53:51 From Sivasubramanian M to Everyone:
can

13:54:06 From Vanda Scartezini - Brazil to Everyone:
Olivier and Siva... i believe consultation time is , in my view the most relevant time consumer but it is fundamental...

13:54:23 From Sivasubramanian M to Everyone:
can't afford to lengthen the planning and oversight processes just to be sure that every penny is spent precisely.

13:54:42 From Sivasubramanian M to Everyone:
I understand that the carefulness does not only relate to money.

13:54:45 From Ahmad Aghar - ICANN73 Fellow to Everyone:
Agree @Siva. This seems to be a problem in most of ICANN's constituencies! I'd say it should definitely be addressed by the entire community

13:55:33 From Cheryl Langdon-Orr to Everyone:
Time check

13:56:25 From Sivasubramanian M to Everyone:
@Vanda yes, consultation is paramountly important, but needs to be swifter.

13:58:22 From Vanda Scartezini - Brazil to Everyone:
Siva- mostly depending on us to agree to reduced time avoiding too short time but reducing the time extension- majority of contributions are made in first 15 days or never ...

13:58:44 From Vanda Scartezini - Brazil to Everyone:
thank Giovanni, Becky and Xavier

13:58:55 From Becky Nash (Org) to Everyone:
Thank you everyone

13:58:59 From Olivier MJ Crepin-Leblond to Everyone:
@Siva: the actual limitation is often the volunteer spare cycles. Volunteer overwork is a reality and hence processes often need to be paced. Especially when processes require public consultations etc.

13:59:00 From Giovanni Seppia (ICANN org) to Everyone:
Thank you

13:59:07 From Margaret Benavides-ICANN Org to Everyone:

Thank you.

13:59:07 From Bill Jouris to Everyone:

CLO, you got the microphone back, but they seem to be muting you anyway off and on

13:59:11 From Mouloud Khelif - ICANN73 Fellow to Everyone:

Thank you everyone !

13:59:18 From Hadia Elminiawi (ALAC-Participant) to Everyone:

Thank you to ICANN org team

13:59:25 From Xavier Calvez - ICANN Org to Everyone:

The ICANN ecosystem deals with nearly always new issues, and tries to find solutions and do so by involving all users (the community) across the world... Inevitably, that takes a lot of time and effort.

13:59:26 From Dave Kissoondoyal (Mauritius) - ALAC to Everyone:

Thanks Xavier, Becky and Giovanni

13:59:35 From Hadia Elminiawi (ALAC-Participant) to Everyone:

Thanks to all speakers and thank you Cheryl

13:59:52 From Xavier Calvez - ICANN Org to Everyone:

That inclusivity sometimes may come in the way of efficiency... But it is a balance between inclusivity and efficiency.

13:59:53 From Sivasubramanian M to Everyone:

@olivier will continue on this with you after the meeting...

14:00:03 From Ahmad Aghar - ICANN73 Fellow to Everyone:

Thank you everybody!

14:00:04 From Hadia Elminiawi (ALAC-Participant) to Everyone:

Thank you At-large team

14:00:07 From Xavier Calvez - ICANN Org to Everyone:
