Workspace Central Page

Welcome to your new workspace. This is your new **workspace central page**. You can have as many pages in your workspace as you wish, but this is the page that you return to by clicking the workspace name in the navigation bar above. The workspace navigation bar has links to the following areas:

- this page, the **Workspace Central Page**
- **What's New** – a list of recently updated pages
- **My Watchlist** – a list of the pages *you* watch
- **Weblogs** – the top page for the blogs
- **Invite Others** – only you as an admin for this workspace can see this link. Use this to invite your colleagues and give them access
- **+ New Page** – used to create new pages

Edit this page as you like to communicate the purpose of your workspace. Provide your own links to important content. Below, we have provided a typical

outline for a workspace central page. Edit the content of this page to get started. |
Videos, tutorials and more! Learn how to make the most of your workspace at [Getting Started](#) |

About This Workspace

Provide a purpose statement for the content in this workspace.

Important Links

Use this page as a jumping off point for the rest of the workspace. Provide links to important projects, process notes, etc. Provide a link to [Socialtext Documentation](#) if you want.

Member Directory

*If you have **Socialtext People** installed, you can see the directory by clicking the People (<http://?action=people>) link in the navigation bar above.*

If you don't have Socialtext People installed, you can use a template like [Member Directory](#) to provide a summary for each person.

Dynamic Content

*Use Socialtext WikiWidgets to provide dynamic views into activity in this workspace. Use the **Insert** menu in Edit view to add any wikiwidget from the wikiwidget set. For example, the three wikiwidgets below show 1) the 10 most recently edited pages in this workspace, 2) recent posts from the Socialtext Blog and 3) recent changes to pages tagged with 'Welcome'.*
