Jari Arkko: Hello everyone. Good to start working again with you all, in new year 2015.

Etienne TSHISHIMBI: Happy new year everyone

Etienne TSHISHIMBI: Le son est haché est ce que c'est ainsi chez vous

Etienne TSHISHIMBI: ?

Etienne TSHISHIMBI: oui

Etienne TSHISHIMBI: oui

Janvier Ngnoulaye: Bonjour à tous, Hi to All

Fatimata: Ah Bienvenue Janvier

Janvier Ngnoulaye: Merci Fatima

Tijani BEN JEMAA: Je suis coupé

Silvia Vivanco: Hello all

Tijani BEN JEMAA: pouvez-vous me reconnecter s'il vous plait

Fatimata: Hi Silvia

Silvia Vivanco: Welcome to the Webinar

Mary Uduma: Hello All, I hear french from my adio not english. Can I be switched to ENGLISH CHENNEL?

Fatimata: Please call back Tijani

Silvia Vivanco: We are still gathering. Staff will let us know when we are ready to start

Janvier Ngnoulaye: Peut-être passe à la présentation suivante en attendant l'arrivée d'Adiel ?

Adebunmi Akinbo (.ng ccTLD, DNS Africa): Happy New Year All. No sound at my end.

Seun Ojedeji: are we starting soon? i can't hear anything

Beran Gillen: @janvier, je suis d'accord

Adebunmi Akinbo (.ng ccTLD, DNS Africa): Can i get a dial in? (+2348171111017).

Gisella Gruber: @ mary - we are dialling out to you again

Janvier Ngnoulaye: Sorry, let go in English Channel: May be we move to the next item while Adiel is try to join ?

Mary Uduma: OK. BUT MY ADOBE IS IN FRENCH

Etienne TSHISHIMBI: oui

Etienne TSHISHIMBI: on entend mieux

Etienne TSHISHIMBI: maintenant

Janvier Ngnoulaye: Yes I'm hearing you people very well

Adebunmi Akinbo (.ng ccTLD, DNS Africa): English Channel, please.

Gisella Gruber: We are starging

Gisella Gruber: @ Adebunmi - we are calling you

Gisella Gruber: @ Mary - please mute your speakers in order to avoid background noise

Beran Gillen: line is bad cant hear a thing

Gisella Gruber: @ Beran - will call you back

Adebunmi Akinbo (.ng ccTLD, DNS Africa): Thanks, Gisella. Audio Call out in English is clear.

Silvia Vivanco: See: <https://www.icann.org/resources/pages/icg-faqs-2014-10-10-en> with ICG FAQ

Gisella Gruber: @ Adebunmi - all good!

Silvia Vivanco: CWG to Develop an IANA Stewardship Transition Proposal on Naming Related Functions : <https://community.icann.org/x/37fhAg>

Adebunmi Akinbo (.ng ccTLD, DNS Africa): @Gisella - all good. Thanks.

Barrack Otieno: It would be nice to hear from the respective representatives a brief presentation on what we have achieved so far and the next steps

Silvia Vivanco: t-Large Ad-hoc WG on the Transition of US Government Stewardship of the IANA Function Meetings and Events: <https://community.icann.org/display/atlarge/At-Large+Ad-hoc+WG+on+the+Transition+of+US+Government+Stewardship+of+the+IANA+Function+Meetings+and+Events>

Yaovi Atohoun: I am on the EN Channel. Please who is speaking now?

Seun Ojedeji: @Barrack i think Tijani is trying to do the recap however i guess we can fill in accordingly

Silvia Vivanco: At-Large Ad-hoc WG on the Transition of US Government Stewardship of the IANA Function : <https://community.icann.org/display/atlarge/At-Large+Ad-hoc+WG+on+the+Transition+of+US+Government+Stewardship+of+the+IANA+Function>

Seun Ojedeji: Tijani is speaking @Yaovi

Yaovi Atohoun: @Seun: Thanks

Fatimata: Barrack, we are looking for specific questions that will trigger a short presentation

Gisella Gruber: Reminder - please state your names when speaking

Fatimata: by one of the presenters

Fatimata: Tijani is providing the explanations

Jari Arkko: I am here to talk about IETF topics, if there are any questions on that.

Yaovi Atohoun: Question: Would like to know about the work done by the At-Large Ad-hoc WG. To which group the result was sent?

Barrack Otieno: Question: at what point will the outputs of the different working groups be synchronized or will this be presented as separate reports to the NTIA?

Fatimata: A candid question for the 3 functions: What are the challenges linked to each of them?

Mary Uduma: The audio is not very clear sometimes

Adebunmi Akinbo (.ng ccTLD, DNS Africa): Am participating in CCWG.

Adebunmi Akinbo (.ng ccTLD, DNS Africa): I will support if it arise...

Gisella Gruber: @ mary - do you have another number?

Gisella Gruber: PLEASE state your names when speaking

Mary Uduma: It is better now

Jari Arkko: Barrack - there are two phases for synchronization - first during proposal development (ongoing now). A second during the ICG's composition of the overall plan from the parts. ? We need to deliver one proposal to the NTIA.

Seun Ojedeji: okay i wanted to address Yaovi's question but its fine if Tijani also takes it

Seun Ojedeji: i think Barrack's question is more to the ICG (mary or mohamed)

Yaovi Atohou: If I understand Tijani the input from the At Large Ad hoc WG is sent to CWG??

Barrack Otieno: Interesting Jari , many thanks for your response any challenges so far in Synchronising?

Barrack Otieno: It would be great to hear from Mary or Mohamed, i am listening

Mary Uduma: What is your question Barrack?

Barrack Otieno: I had asked about Synchronization of the various groups outputs, Jari has responded

Barrack Otieno: that there is an ongoing process

Seun Ojedeji: Hi Yaovi, no At Large Ad hocWG is involved in all the 3 communities and we contribute directly to the 3 community processes (more on the names - CWG)

Jari Arkko: Barrack - i think one practical challenge has been that people think too much need to be synchronized. the different functions work in different ways. port number allocation is different from tld allocation which is different from ccTLD issues. so the answer is trying to focus on the real sync issues where we actually must have a coordinated answer. for? instance, there are some special addresses that IETF allocates whereas most addresses are allocated by RIRs. we must be clear who is responsible for what. and I think we are, but that's one example of where sync is necessary :-)

Barrack Otieno: thanks Jari

Barrack Otieno: very interesting

Barrack Otieno: thanks Mohamed

Adebunmi Akinbo (.ng ccTLD, DNS Africa): In a nutshell, nothing is synchronised if its not related to the issue. ICG work is a little different from the CCWG.

Mary Uduma: Thanks Jari. Well said.

Otunte Otuneh: Gisella please call me on the English Channel

Seun Ojedeji: @Yaovi here is the url to the WG page for more information: <https://community.icann.org/display/atlarge/At-Large+Ad-hoc+WG+on+the+Transition+of+US+Government+Stewardship+of+the+IANA+Function>

Adebunmi Akinbo (.ng ccTLD, DNS Africa): CCWG will only address issues that ICG is not defined on in areas that may concern accountability more than technicality.

Yaovi Atohou: Were some ALSes able to do some information activities at the local level even to their members?

Adebunmi Akinbo (.ng ccTLD, DNS Africa): @Barrack - an directing it to you.

Barrack Otieno: Mary/Kivuva /Seun question to you, is there consensus on the need for a separate body to carry out the NTIA function or do the proposals lean towards maintaining the status quo?

Barrack Otieno: thanks Akinbo

Barrack Otieno: a bit confusing though

Adebunmi Akinbo (.ng ccTLD, DNS Africa): I believe that once the ICG seats, the final document would be sent to the community before any final presentation.

Gisella Gruber: @ Mary - dialling you back

Seun Ojedeji: Good question @Barrack i will say that the response to that question differs by communities. For the numbers and protocols is somewhat no major change. However its something not yet clear on the names side

Otunte Otuneh: Gisella please me also

Adebunmi Akinbo (.ng ccTLD, DNS Africa): @Barrack: IETF + CWG + CRISP are addressing core technical issues that may be related to policies.

Gisella Gruber: @ Otunte - will call you again

Adebunmi Akinbo (.ng ccTLD, DNS Africa): CCWG is looking at the relationship with ICANN Policies and the Public Interest value as it relates Accountability.

Adebunmi Akinbo (.ng ccTLD, DNS Africa): So, we are all working on different parts that may interconnect at some pointnot fully.

Etienne TSHISHIMBI: on entend mieux bien

Gisella Gruber: @ Otunte - please send me your number via private chat

Seun Ojedeji: <https://community.icann.org/display/gnsocwgdtstwrshp/CWG+to+Develop+an+IANA+Stewardship+Transition+Proposal+on+Naming+Related+Functions>

Barrack Otieno: thank you Seun

Adebunmi Akinbo (.ng ccTLD, DNS Africa): Question..

Seun Ojedeji: can i be redialed please

Seun Ojedeji: i just lost audio

Gisella Gruber: Adiel has joined the call - s'est joint a nous!

Gisella Gruber: @ Seun -will do now

Barrack Otieno: great , welcome Adiel

Barrack Otieno: yes we can Mwendwa

Adebunmi Akinbo (.ng ccTLD, DNS Africa): Loud and clear...

Seun Ojedeji: okay i am back

Seun Ojedeji: @Fatimata sorry i missed your question as i lost audio, could you type it here?

Adebunmi Akinbo (.ng ccTLD, DNS Africa): Can those in the English Channel mute their mobile phones until recognised to reduce the background noise.

Seun Ojedeji: and any other question can still be typed here and i can respond via this window

Etienne TSHISHIMBI: chez moi le son est vraiment haché

Etienne TSHISHIMBI: j'espère que c'est ma ligne et que sur l'enregistrement j'entendrais mieux

Adebunmi Akinbo (.ng ccTLD, DNS Africa): @Seun: Kaphish!

Fatimata: @Seun, I am resending my question herer : Fatimata: A candid question for the 3 functions: What are the challenges linked to each of them?

Gisella Gruber: @ Etienne - on entend bien sur l'Adobe donc l'enregistrement sera audible

Etienne TSHISHIMBI: ok

Etienne TSHISHIMBI: Merci

Etienne TSHISHIMBI: ah oui oui la qualité est meilleure

Etienne TSHISHIMBI: @Gisella merci

Fatimata: Please call me back

Gisella Gruber: @ Fatimata - en cours

Fatimata:Merci Gisella
 Seun Ojedeji:i can't hear Akinbo
 Gisella Gruber:Adebunmi is unmuted
 Fatimata:I am back
 Silvia Vivanco:Reminder, please say your name when you would like to speak
 Silvia Vivanco:If you are on AC room raise your hand
 Mary Uduma:No audio
 Gisella Gruber:@ Mary - dialling you back
 Mary Uduma:Audio back
 Adebunmi Akinbo (.ng ccTLD, DNS Africa):Apologies. Am muted on the call out. Just stepped away.
 Seun Ojedeji:loud and clear mary
 Adebunmi Akinbo (.ng ccTLD, DNS Africa):Very Correct on the attitude of African ccTLD
 Adebunmi Akinbo (.ng ccTLD, DNS Africa):CCWG raised the same issue and suggested new contract; debatable.
 Fatimata:@Mary, delegation, redelegation, stewardship, very big challenge for African governments
 Fatimata:thanks Mary
 Seun Ojedeji:<https://www.icann.org/en/system/files/files/cwg-naming-transition-01dec14-en.pdf>
 Fatimata:thanks Seun
 Janvier Ngnoulaye:It's true that they (African governments) are facing lot of challenges in such that Governance of Internet is not now their priority, but we must push them to be involved into this process of Stewardship Transition of IANA.
 Adebunmi Akinbo (.ng ccTLD, DNS Africa):@Janvier: How do you push a tired ant to work?
 Adebunmi Akinbo (.ng ccTLD, DNS Africa):Its easy and it works with perception.
 Adebunmi Akinbo (.ng ccTLD, DNS Africa):Allo the movement to keep moving and you will see a follow bacd process.
 Mary Uduma:Lost connection on phone
 Janvier Ngnoulaye:@Adebunmi: Make proposals on behalf them and move forward
 Gisella Gruber:@ Mary - we are calling you
 Gisella Gruber:Mary is back
 Adebunmi Akinbo (.ng ccTLD, DNS Africa):@Janvier: Simple and correct.
 Fatimata:Very clear answer Jari. Thanks
 Mary Uduma:I am back
 Adebunmi Akinbo (.ng ccTLD, DNS Africa):you can not keep waiting for them. Time will tell and the other states can support at that time.
 Adebunmi Akinbo (.ng ccTLD, DNS Africa):1. corporation vs community = membership
 Adebunmi Akinbo (.ng ccTLD, DNS Africa):2. defining public intrest
 Adebunmi Akinbo (.ng ccTLD, DNS Africa):3. Addressing future issess on check and balance.
 Adebunmi Akinbo (.ng ccTLD, DNS Africa):Looking beyond IANA Transition.....
 Fatimata:Well done Tijani! Thanks
 Janvier Ngnoulaye:Thanks Tijani
 Adebunmi Akinbo (.ng ccTLD, DNS Africa):Can i respond to Mary"s question
 Barrack Otieno:Thanks Tijani
 Yaovi Atohoun:Save the date: January 13 at 14:00 UTC for another webinar on the same topics organized by the ICANN Africa staff . More info will be sent out tomorrow
 Adebunmi Akinbo (.ng ccTLD, DNS Africa):@Yahovi: Thanks.
 Barrack Otieno:thanks Yaovi
 Fatimata:I have to move
 Seun Ojedeji:13th is a good time...hopefully CWG will have a clear bearing by then
 Beran Gillen:That will be a great follow up @Yaovi
 Adebunmi Akinbo (.ng ccTLD, DNS Africa):They are not fully linked.
 Adebunmi Akinbo (.ng ccTLD, DNS Africa):That is what IANA does as one and sepratlly . .
 Jari Arkko:quick answer on the question of why the three functions were not put in the same WG. they truly are somewhat different. look at how you allocate a port number vs. allocate a TLD, for instanc?e. There are some touch points where sync is needed, but the three need not be done in exactly the same way. And they are not, even today. And even today, USG oversight on names is different from, say, protocol numbes. So... I think we are doing exactly the right thing now, and the ICG will ensure that the necessary sync points are there.
 Adebunmi Akinbo (.ng ccTLD, DNS Africa):+1 Jari
 Gisella Gruber:Please say your names
 Janvier Ngnoulaye:++1 @ Jari
 Mary Uduma:+1 Jari. Thnks for the further clarifications
 Fatimata:Merci beaucoup a tout le monde
 Heidi Ullrich:Thanks everyone! Great discussion!
 Seun Ojedeji:thanks all
 Silvia Vivanco:Thank you all for your participation to this Webinar!
 Seun Ojedeji:bye
 Adebunmi Akinbo (.ng ccTLD, DNS Africa):Doodle would not work. Stand with a date to meet deadlines...
 Janvier Ngnoulaye:Thank you too, Merci beaucoup aussi.
 Barrack Otieno:thank you all, very usefull call
 Silvia Vivanco:Thanks to all the Speakers for excellent presentations
 Barrack Otieno:many thanks to our presenters
 Adebunmi Akinbo (.ng ccTLD, DNS Africa):Thank you ALL.
 Yaovi Atohoun:thank you all
 Gisella Gruber:AFRALO Monthly Meeting tomorrow at 1830 UTC
 Janvier Ngnoulaye:Merci et à demain
 Mary Uduma:Thanks all , very useful session and bye
 Seun Ojedeji:bye
 Beran Gillen:thank you bye
