Gisella Gruber: Remmy - dialling you
Remmy Nweke (@ITRealms): ok @Gisella Thanks
Remmy Nweke (@ITRealms): Please where are we in the agenda
Barrack Otieno: starting from 2016 Hi Aziz, on the meeting strategy ICANN implements its new strategy – A-meeting, B-meeting, C-meeting.
Remmy Nweke (@ITRealms): @Gisella pls put + before the numbers
Barrack Otieno: we can get more information here <https://meetings.icann.org/en/future-meeting-strategy>
Barrack Otieno: it defines how the meeting strategy will operate
Barrack Otieno: Gisella you can highlight this under that agenda item - i followed this under a different ICANN Constituency
Remmy Nweke (@ITRealms): @Barrack, what is Meeting A to C?
Seun Ojedeji: more info about NextGEN program is here: <https://www.icann.org/development-and-public-responsibility/nextgen>
Barrack Otieno: Check the Link @Remmy, the idea is to make the meetings more focused
Barrack Otieno: as opposed to the current state where everything is mashed up
Remmy Nweke (@ITRealms): ok I see. can you share the link
Barrack Otieno: <https://meetings.icann.org/en/future-meeting-strategy>
Remmy Nweke (@ITRealms): Thanks for the link @Barrack
Seun Ojedeji: Application to ICANN55 opens on the 4th of this month
Remmy Nweke (@ITRealms): @Seun many thanks, it is very important to share this with our communities, especially as Marrekech in within our region, I hope more Africans take advantage of this.
Remmy Nweke (@ITRealms): @Gisella, pls can my volume be raised from the other end.
Gisella Gruber: @ Remmy yes
Remmy Nweke (@ITRealms): thanks Gisella
Remmy Nweke (@ITRealms): @Seun, will be ok to request two or three persons to look at the comment for us? and invariably respond on our behalf
Remmy Nweke (@ITRealms): @Gisella, I asked Seun question, above?
Seun Ojedeji: @Remmy i am looking for it as well
Seun Ojedeji: will soon post the url
Seun Ojedeji: here: <http://atlarge-lists.icann.org/pipermail/afri-discuss/2015-August/003546.html>
Barrack Otieno: Hi Seun, does the extension of the IANA contract grant us some reprieve?
Remmy Nweke (@ITRealms): @Seun, the point I making is since you reported the comment is on, I was asking if we can mandate two or three persons to work on it and come up with comments for AFRALO whether in support or against.
Seun Ojedeji: @Barrack yes and no as there is still the implementation phase and i think contract extension will give us a little more time for implementation and not necessarily for proposal development
Seun Ojedeji: @Remmy we have developed a draft of AFRALO comment so we seek AFRALO community comment on the draft statement that has been made
Remmy Nweke (@ITRealms): On the board removal, I think its not in the place of board so to say to remove board members seconded to them, instead, they may encourage their respective constituencies to recall their members on the board and not removal..
Nkem Nweke (DigitalSENSE Africa): @Seun we see the draft comments
Remmy Nweke (@ITRealms): Thanks @Seun for the update. Was the link the one shared earlier.
Barrack Otieno: @ Seun, thanks

Daniel K. Nanghaka:@Seun, and @Tijani Thanks for the update
