## Outreach and Engagement Activities

### Suggestions:

- to publish a list of on-site At-Large participants of IGF 2021 (people will meet, may share some accommodation payments, to build a walking plans together etc.) - closed wiki page maybe?
- to publish the scheduled sessions in social media which will be leaded by At-Large members as speakers, leads.
- to announce the ICANN IGF activities and invite At-Large members to participate and support them.
- to appoint At-Large reporters and ask them to prepare a short summary for each day of IGF (subjective view and agenda) - it will be interesting! - may be text or video format.
- after the IGF, I propose to call At-Large community members for a meeting to discuss IGF outcomes (with ICANN perspectives and hot topics). It may be 90 min light talk, RALO leaders, onsite participants and all At-Large community.
