[Joint ALAC & GAC Meeting](#) EE

- ☐ Manal Ismail, GAC Chair suggested mapping GAC membership with ALS presence in their respective countries. Hadia and Alan responded to a question from CTU regarding confirming the active status of ALSes, noting that the ALS Mobilization WP has developed criteria that the RALOs are implementing.
- ☐ Joanna Kulesza, Cheryl Langdon-Orr GAC-ALAC Small Team / PSWG-CPWG Subgroup to develop joint White Paper(s) on DNS abuse and relevant topics: GAC asked ALAC if there is interest in expanding the ACs' roles in ICANN policy development. In particular, by producing joint GAC/ALAC white papers on issues of mutual interest, particularly related to geopolitical issues. A joint white paper on how the RAA could be updated to include enforceable contract provisions related to DNS Abuse. It was noted prior PSWG/CPWG meetings could be built upon to form a subgroup.
- ☐ Manal Ismail, GAC Chair summarized collaborations going forward: 1) ICANN and Governments - Joanna Kulesza (ALAC) & Shi Young-Chang, ROK (GAC) to cross check GAC & ALAC memberships and see where to start establishing channels between GAC Representatives and At-Large Structures or Individuals. 2) DNS Abuse and Beyond - Jonathan Zuck (ALAC) & Nigel Hickson, UK (GAC) to create a small group of interested volunteers from both constituencies to work on a joint white paper, in order to trigger a community discussion and hopefully drive progress between now and the launch of new gTLDs. 3) Reflection on Public Interest Processes - Justine Chew, Alan Greenberg, Hadia Elminiawi (ALAC) & Jorge Cancio (GAC) is a topic that proved to be of significant interest to both constituencies; discussion will continue inter-sessionally to align views and get prepared for a wider community discussion at ICANN73.
