

At-Large ICANN71 Proposals for ICANN Plenaries and At-Large Policy Sessions

At-Large Proposals for ICANN71 ICANN Plenaries:

Final Plenaries:

- Governmental Regulatory Developments, WHOIS, Data Protection, and Cybersecurity
- ICANN and the Internet Governance Ecosystem
- Understanding Reputation Block List Providers

At-Large ICANN71 At-Large Policy Sessions:

Title	Objective	Description	Proposer	Moderator	Panelists	Status
GDPR, EPDP and EU Policy Implications The General Data Protection Regulation (GDPR) as a technology and policy implications, including EPDP and GDPR in the context of the European Union (EU) system and ICANN		The session will scope the potential impact that advancing GDPR compliance with the use of technology will likely have on Internet end users. It particularly seeks to explore the policy implications of the recently issued US patent #10,979,384 for "Systems and methods for preserving privacy of a registrant in a Domain Name System (DNS)" awarded to Verisign, and the level to which it might impact the further work of the EPDP.	Joanna Kulesza			
ccTLD governance models - Testimonies from At-Large end users	To explore the At-Large end-user experience with ccTLDs.	This session will try to highlight the At-Large end user experience with ccTLDs. Bringing together experiences about four ccTLD governance models. The session will start with an introduction about various ccTLD governance models, and then we shall have testimonies from At-Large end users about their ccTLD governance models. The At-Large speakers will come from different At-Large regions and will talk about four different ccTLD governance models.	Christopher Wilkinson	Hadia ElMinia wi	Expert on ccNSO policy history for the introduction, A GAC member to discuss the matter from a national point of view, a domain name industry player or leader.	
Developing Regional Policy measures in the field of DNS abuse ▪ Re-scheduled to 6 July EURALO Roundtable		The session will examine various approaches to DNS abuse measurement and policy approaches, including two recent regulatory proposals for outside feedback on current ICANN discussions.	Joanna Kulesza	Joanna Kulesza, ALAC Vice Chair for Outreach, and Abdulkarim Oloyede, ALAC Member		
End User Participation in ICANN PDPs and their Role within the ICANN Ecosystem	To explore the weight and Impact of Internet end users on ICANN policy development processes	The session will highlight end-users participation in ICANN PDPs and their role within ICANN's ecosystem. Exploring their weight within ICANN's community and their impact on decision-making. The session will start with an introduction about Internet end users participation in ICANN ecosystem, and then we will attempt to answer two questions: <ul style="list-style-type: none"> • How much does the ICANN Board rely on the Internet user community in taking its decisions? • To what extent has the ICANN community been able to gather opinion that is representative of the Internet end users? 	Hadia ElMiniiawi	Hadia ElMiniiawi	From the At-Large community, the ICANN Board of Directors and the GNSO.	

EURALO ICANN Policy Session:
