AGENDA

1. **Welcome and Roll Call - Staff (2 minutes)**
2. **Review of the Agenda - Roberto (2 minutes)**
3. **Under which conditions can we allow an individual member of a RALO to be also a member of an accredited ALS in that RALO? - Roberto (10 minutes)**
 - a. An individual must not be the official representative of an ALS
 - b. An individual must not be in the leadership team of an ALS
 - c. They must not participate into the voting of the RALO LT elections
 - d. They must follow the RoP of their RALO
4. **What would be the harm in allowing an individual member of a RALO to be also a member of an accredited ALS in that RALO? - Roberto (10 minutes)**
 - a. A person could have a vote as individual and a vote as member of an ALS
 - b. This would add complexity in the structure of a RALO
 - c. Raises a question on the need for accredited ALSes at all
5. **What would be the benefit in allowing an individual member of an accredited ALS to be a member in that RALO? - Roberto (10 minutes)**
 - a. They don't have to wait for the communications to be forwarded to them by the ALS representative once they became a member
 - b. It gives indication how successful the ALS in reaching with at-large emails to its members
 - c. It allows active ALS individuals to get engaged into at-large work if there is leadership politics within the ALS

6. **Productivity tools - Roberto (10 minutes)**

- a. Wiki (Confluence) - here we can create a table of issues and each issue will have a child page that you and staff draft and people comment as mentioned in the last meeting;
- b. Google Documents - as suggested by Alan's way - wiki can be managed well, also people are natives of the website, they know how to navigate;
- c. Other proposals - outside ICANN's set of supported tools (Note that staff won't be allowed to support)

7. **Voting rights - Roberto (10 minutes)**

- a. Current situation
 - i. One cumulative vote for all individuals
 - ii. No vote at all
 - iii. A limited number of votes, depending on the balance between ALS and UI
- b. RALOs should have flexibility
- c. Legal implications

8. **Next call - Roberto (3 minutes)**

- a. Skipping 19 October due to (ICANN69)
- b. Poll for alternate time
- c. Resume calls from 26 October on

9. **AOB - (1 minute)**
