

Historical Versions of the ICANN Stakeholder Tool

- [Version 8 \(published October 20 2018\)](#)
 - [Version 7.5 \(published September 25 2018\)](#)
 - [Version 6 \(published March 12 2018\)](#)
 - [Version 5 \(published December 19 2017\)](#)
 - [Version 4 \(published ICANN57 \)](#)
 - [Version 3](#)
 - [Version 1](#)
-

An Analysis of the Fellows that have passed through the Fellowship can yield persons that could be potential members of At-Large.

[Glenn McKnight](#) has done a breakdown of Fellowship statistics by country in time for ICANN54.

[Dev Anand Teelucksingh](#) has done an updated version to improve on searching/drilldown capabilities and to document the discrepancies in geographic names between ICANN, ISO and various communities in ICANN in time for ICANN55.

A third version of the spreadsheet has been done to research members of the ICANN community in Fellowship, GAC and ccNSO by country or by region in time for ICANN56.

A fourth version of the spreadsheet has been done in time for ICANN57 to research members of the ICANN community in At-Large Fellowship, GAC and ccNSO by country or by region in time for ICANN56 in a dashboard style review by country

A fifth version published December 19 2017 was done to include a regional analysis dashboard in addition to the dashboard review by country. This was redone from scratch to remove "old text/code" and (hopefully) simplify the organisation of data for easier updating.

A sixth version published in March 12 2018 lists the Nextgen students per country and accredited registrars by country and adds registrars to the regional analysis dashboard.

A seventh version published in June 22 2018 adds NCUC persons and organisations per country and by region.

Version 7.5 published in September added a new look to the RegionalDashboard

For Version 8 published in October 2018 during ICANN 63, the tool was redone from scratch with an updated UI of the country page so that all of the stakeholder information is presented into two columns vertically instead of the scrolling horizontally in previous versions.

During ICANN63 in October 2018 , with the redoing of the Tool for version 8, a lot of the other stakeholder such as NPOC, Business Constituency, ISP and Connectivity Providers Constituency, Registrar Stakeholder Group (RrSG), Registries Stakeholder Group (RySG).

Version 8 (published October 20 2018)

Alternative link for Google Spreadsheet : https://docs.google.com/spreadsheets/d/15882YWPkhx-Gv2tAEPBdJPJKK5QBjvsX2_mvRyDJUQs/edit?usp=sharing

Also the At-Large RALO dashboards can now import the data from this spreadsheet so more detailed country breakdowns can be done per region. See LACRALO dashboard at

https://docs.google.com/spreadsheets/d/1Zlv5nEu5REcF4nNQHvm4EFri5M9r-v4GaxhHGL9j3S0/edit?usp=sharing&authkey=Cl_OprwD which was updated with the country comparisons to see which countries have ALSes, membership in the GAC and ccNSO.
