ECUADOR Diego Acosta Bastidas:Saludos afectuosos desde Ecuador a los registros latinos

Avri Doria:Feel free to contribute questions in the chat

ECUADOR Diego Acosta Bastidas:equatorial's good afternoon.

Heidi Ullrich:New gTLD Financial Assistance Handbook: <http://newgtlds.icann.org/en/applicants/candidate-support/financial-assistance-handbook-redline-11jan12-en.pdf>

Gisella Gruber-White:Please state your names when speaking.

Alan Greenberg:Have names of rest of SARP Panel members been released?

adam:To Zahid/SARP: how did you define "Public Interest Benefit" ?

ebw:question for the queue: if the determination of the panel is final, and the panel has only a private record, how are the corporation's transparency and accountability goals met?

Karla Valente:@Alan - the names of the SARP have not been released. Zahid was the chair and SARP member.

ebw:please speak slowly for the record.

Cintra Sooknanan:hi everyone, hi Eric

Karla Valente:@EBW: the panel had the privacy needed to independently deliberate. the CMR oversaw the process

ebw:actually all the reasons for not speaking to all, and each, application considered by the sarp, should be stated.

ebw:audio drop

ebw:the rational for confidentiality during the evaluation process (a) financial details, (b) non-interaction, are now moot. what are the rational(s) for open-ended confidentiality and how will the experience of this sarp be transmitted to the next sarp?

ebw:audio drop

Heidi Ullrich:Zahid, Adigo has called out to you

Heidi Ullrich:the second line is on mute

ebw:audio drop

ebw:avri: can you scroll down just a little so we can see the seven sub-criteria?

ebw:audio drop

Alan Greenberg:LOST AVRI

Heidi Ullrich:Zahid is now on the bridge

ebw:question for cintra: was that local government?

Yannis Li:Is there any plan for the remaining pool of money as now only 1 application was approved for the assistance?

ebw:clarification: to cintra and zahid -- did cintra have oversight responsibility or observer responsibility?

Cintra Sooknanan:PHEW finally reconnected!

Cintra Sooknanan:CMR is Community Member Representative... Avri you're right

Cintra Sooknanan:Local Government means regional government NOT Federal Government, in the JAS discussions the GAC and the JAS supported inclusion of local government in the Applicant Support Program

Cintra Sooknanan:The problem with the Non Disclosure is that it subsists since the applications are part of the gTLD program

ebw:thanks, not central (represented in gac), but subordinate (not represented in gac) .

ebw:so no oversight function, only an interpretive function.

Cintra Sooknanan:Eric it was a mix both oversight and observer capacity. The SARP did confirm and I am satisfied with the process.

ebw:thanks.

ECUADOR Diego Acosta Bastidas:Question: has the knowledge and expertise over the objections of SARP ". PATAGONIA" or ". AMAZON"

Jonathan Robinson:Considering Zahid's concerns about the absolute (binary) nature of the decision. Is he suggesting that this is reconsidered in this round OR in future rounds?

Avri Doria:Clarifying Questions from the SARP? the idea was invented after. but a good idea.

adam:It would also be interesting to know the Consultant.

ECUADOR Diego Acosta Bastidas:Please send the link of the seven criteria of public interest

ebw:not sure if i'll have audio, so i'll put the questions in the chat:

ebw:1. agree with alan, as this (the n of 7 public interest metric) is similar to the 14/16 metric for community application, and to the best of my knowledge that evaluation

ebw:no audio

ebw:... that evaluation is not private.  
ebw:my interest is actually in the evaluation, not the membership.  
ebw:i would not like the community-type application evaluation for the 14/16 metric to be opaque to the applicant, as well as to others interested in the process.  
ebw:yup  
Edmon:without some info on the scoring it is also difficult to refine the requirements (alan just said it before i finished typing this)  
ebw:zahid: at this point we, as co-authors of the jas recommendation, have no idea which elements of language presented problems to the sarp members. we can assume that cintra, as a co-author of the jas originating language (jas contributor), knows each of these, but that is an assumption. do you plan to provide a summary of "language too restricting or ambiguous" issues?  
Karla Valente:@Avri: I have a meeting starting in 5 minutes  
Jonathan Robinson:Please excuse me. I also have to join another meeting.  
ebw:thanks karla.  
Cintra Sooknanan:no audio  
Cintra Sooknanan:?  
Karla Valente:Thank you all and my apologies for not being able to extend my time for another 30 minutes due to prior commitment.  
Avri Doria:i have another meeting too, but this is worth keeping going if we have new questions.  
sergio salinas porto:I knock knees, but must retire ... bye!  
Avri Doria:thank you for being here  
adam:got to leave - thanks for the webinar.  
Edmon:i was wondering whether there is plan to invite feedback from the applicants (all of those who applied as well as trying to identify some of the ones in this round that thought about applying for financial support but did not)  
ECUADOR Diego Acosta Bastidas:Question: has the knowledge and expertise over the objections of SARP ". PATAGONIA" or "  
ebw:there is a process design issue zahid identified: if any question is to be asked, then must all applications be asked the same question, and if any question is asked, is there sufficient time for the question and response.  
ebw:action item request to staff: please post the 7 public interest metrics, and if available, the findings of the sarp on each of the seven, and the aggregate, as well as the weighting, or inform us that this information is not available.  
ebw:one more question.  
ebw:the non-eligibility "rule", again, to staff, identify where this originates, as it is outside of the recommendation of the jas (to the best of my memory as a co-contributor).  
ebw:agree  
ebw:i see your point cintra.  
ebw:action item to staff: please identify where the rejected (for the purposes of sarp) application must not be considered further, as this is outside of the recommendation of jas (to the best of my memory).  
Cintra Sooknanan:+1 Alan  
JOHNNY LAUREANO:+1
