## 2021-01-13 Operations, Finance and Budget Working Group (OFB-WG) Call

Comments on draft FY22 budget

RH has concerns with funds for new gTLDs. Some inconsistencies with regards to reserve funds. Also, there are 15 initiatives to which funds are allocated - UA/IDNs/MSM seem to be underfunded.

JH - left out figures for SubPro, Auction Proceeds, etc.

MM - Agreed with JH re some funds were from different streams. They separated it from the main. budget.

HR - Operations. - MSM; evolving and involving community decision making; internal/external ethics policies; UA

CLO - Terminology (irregularity is a strong word); Contingency Fund (at least one year's Operations budget); Consider how this information will be presented to the Board.
