

Pilot April and May 2022

Description

Group Objectives:

The pilot will consist of a series of virtual sessions facilitated by the org's Planning team. Other subject matter experts also attended the pilot sessions. In addition, a liaison from the ICANN Board attended the sessions.

During the sessions, participants reviewed the list of Board-approved recommendations from Specific Reviews that are pending for implementation as they are subject to prioritization.

Steps of pilot prioritization process:

Step 1: The output is a list of prioritized Board-approved specific review recommendations to be published as a resource document for the Proposed for Adoption FY23-27 Operating and Financial Plan presented to the ICANN Board for Adoption in May 2022.

Step 2: Within 1-2 months from the end of Step 1, and once the org receives the list of prioritized recommendations, org will start to assess them against the resources required for their implementation and develop a detailed implementation plan. Furthermore, during this step, org evaluates possible dependencies among the prioritized recommendations. Subsequently, org will begin to evaluate the implementation of the prioritized recommendations and these plans will be reported back out to the Community.

Final Prioritized List from the Pilot 03 May 2022

The output is a list of prioritized Board-approved specific review recommendations to be published as a resource document for the Proposed for Adoption FY23-27 Operating and Financial Plan presented to the ICANN Board for Adoption in May 2022.

The org thanks the community members for their participation in this pilot and for their input received thus far in the project. Below is the list of prioritized Board-approved specific review recommendations which was finalized on 03 May 2022.

Members

The org recommends that participation consists of members from the community that are selected by the stakeholder groups and constituencies leadership. The stakeholder groups and constituencies leadership will be asked to nominate one member to participate in the prioritization process. The request includes identifying an alternate member should the primary member be unable to participate due to unforeseen reasons. The community planning prioritization group will have up to 9 members as follows:

#	Affiliation	Member	Alternate
1	At-Large - ALAC	Cheryl Langdon-Orr	Jonathan Zuck
2	ccNSO	Chris Disspain	Irina Danelia
3	GAC	Susan Chalmers	Manal Ismail
4	GNSO - CPH	Donna Austin	Jothan Frakes
5	GNSO - CSG	Susan Payne	Wolf-Ulrich Knochen
6	GNSO - NCSG	Rafik Dammak	Dr A M Sudhakara
7	RSSAC	Ken Renard	N.A.
8	SSAC	Barry Leiba	Chris Roosenraad
9	ASO	N.A.	N.A.
