

Zoom chat: 2022-03-09 Joint Session: ALAC & GNSO Council

14:25:49 From Roberto Gaetano - NextGen Mentor to Everyone:
I am sure that then we all are going to speak slightly faster....

14:26:46 From Maureen Hilyard to Everyone:
I agree Roberto... I never speak at that speed normally.

14:27:40 From Maureen Hilyard to Everyone:
And I know Alan doesn't at the rate he was reading :)

14:28:45 From Mark Datysgeld GNSO Council to Everyone:
Hello, all. Will be able to join audio in 5 minutes or so. I have spoken in other sessions with the same setup, though. Should be good.

14:29:06 From Dave Kissoondoyal ALAC - Mauritius to Everyone:
Hello everyone

14:30:18 From Dave Kissoondoyal ALAC - Mauritius to Everyone:
French is a very poetic language

14:30:19 From Roberto Gaetano - NextGen Mentor to Everyone:
Shall we all test in all languages?

14:30:22 From Olga Cavalli GNSO Council to Everyone:
i want to do in spanish!!

14:30:49 From Cheryl Langdon-Orr to Everyone:
Of course you can @Olga

14:31:02 From Mark Datysgeld GNSO Council to Everyone:
Je suis Mark et j'aime le pain

14:31:33 From desiree_miloshevic_GNSO Council to Everyone:
@Roberto.. yes, but we're limited by the interpretation. Choices

14:31:52 From Matthias M. Hudobnik to Everyone:
We can hear you well olga

14:31:54 From Philippe Fouquart GNSO Council to Everyone:
the GNSO people are really frustrated for not being able to use interpretation on a regular basis! :)

14:32:31 From Jonathan Zuck to Everyone:
True for At-Large as well. This system is so nice!

14:32:40 From Cheryl Langdon-Orr to Everyone:
We are spoilt in ALAC/At-Large Real Time Interpretation is part of ALAC calls since 2009

14:33:19 From Maxim Alzoba GNSO Councillor (RySG) to Everyone:
do I need to run the test?

14:33:27 From Jonathan Zuck to Everyone:
Paul went missing in 2012...

14:33:28 From Claudia Ruiz - ICANN Org to Everyone:

14:34:34 From Raymond Mamattah to Everyone:
Good evening from Accra, Ghana .

14:38:32 From Vanda's iPhone 6S to Everyone:
Hi again everyone

14:40:53 From Matthias M. Hudobnik to Everyone:
Whois and the gdpr - the never ending story

14:41:43 From Sarah Kiden to Everyone:
Lol @ Matthias, right?!

14:41:51 From Olivier MJ Crepin-Leblond to Everyone:
Lovely acronym soup. Yummy. Thanks for explaining each, Justine.

14:42:03 From Maxim Alzoba GNSO Councillor (RySG) to Everyone:
NIS2 will be added on top

14:42:25 From John McCormac - [HosterStats.com](https://www.hosterstats.com) to Everyone:
@Maxim NIS2 will be even worse, unfortunately.

14:42:35 From Maxim Alzoba GNSO Councillor (RySG) to Everyone:
indeed

14:43:39 From Claudia Ruiz - ICANN Org to Everyone:
When submitting a question or comment that you want me to read out loud on the mic, please start with a <QUESTION> and end with a "</QUESTION>" or <COMMENT> </COMMENT>. Text outside these quotes will be considered as part of "chat" and will not be read out loud on the microphone.

14:50:28 From Maxim Alzoba GNSO Councillor (RySG) to Everyone:
Will we see NIS4.0 by then?

14:53:44 From desiree_miloshevic_GNSO Council to Everyone:

Thank you @Hadia for that comment and a question regarding the ODA and the timeline.

14:53:50 From John McCormac - [HosterStats.com](https://hosterstats.com) to Everyone:

@Maxim Please don't give the EC ideas. :) We still haven't dealt with the damage caused by GDPR yet.

14:54:22 From Maxim Alzoba GNSO Councillor (RySG) to Everyone:

@John, I just tried to approximate speeds of the processes

14:55:26 From John McCormac - [HosterStats.com](https://hosterstats.com) to Everyone:

@Maxim The only thing that the EC seems to do quickly is fill out their expenses claims. Everything else, including NIS2 takes a long time. :)

14:55:39 From Maxim Alzoba GNSO Councillor (RySG) to Everyone:

let's hope so

14:58:14 From Jonathan Zuck to Everyone:

And in the ALAC view as well

14:59:45 From Roberto Gaetano - NextGen Mentor to Everyone:

@Jmcc to be fair, there are many important things that the EC has done quickly, like the recovery plan, the sanctions against Russia, and more - I disagree with this representation

15:00:28 From Sivasubramanian Muthusamy to Everyone:

@John The brighter side is that newer versions of legislative proposals would have increasingly incorporated the wisdom of the DNS and Internet Communities !

15:00:56 From John McCormac - [HosterStats.com](https://hosterstats.com) to Everyone:

@Roberto Legislation always seems to take a long time and then it has to be enacted into EU country law within 9 months.

15:01:17 From John McCormac - [HosterStats.com](https://hosterstats.com) to Everyone:

@Siva I hope it will be.

15:01:19 From Maxim Alzoba GNSO Councillor (RySG) to Everyone:

each country

15:01:22 From Steve Chan - ICANN Org to Everyone:

I think this is what Jeff is referring to: https://docs.google.com/document/d/1_A5oEnsFQHAvXDtNNRkDGzPoC2GRTxtInMCwd3rNMOM/edit

15:01:37 From John McCormac - [HosterStats.com](https://hosterstats.com) to Everyone:

@Maxim Yes,

15:02:02 From Justine Chew to Everyone:

Thanks @Steve

15:02:24 From John McCormac - [HosterStats.com](https://hosterstats.com) to Everyone:

It can get very complicated very quickly.

15:03:32 From Sivasubramanian Muthusamy to Everyone:

@John On existing and proposed legislative proposals from Europe and elsewhere, rather than rush to adopt DNS policies and processes, ICANN could put on its global DNS hat and disagree with whatever is disagreeable first.

15:03:39 From John McCormac - [HosterStats.com](https://hosterstats.com) to Everyone:

There was a very sensible set of amendments on NIS2 that were rejected. Not sure of the status of the legislation at the moment.

15:04:04 From Maxim Alzoba GNSO Councillor (RySG) to Everyone:

ICANN does not have a special hat allowing to neglect laws

15:04:23 From John McCormac - [HosterStats.com](https://hosterstats.com) to Everyone:

@Siva In theory, yes. In practice - the GDPR response.

15:04:50 From Jonathan Zuck to Everyone:

Yes, good request Justine!

15:05:34 From Jonathan Zuck to Everyone:

started with 11 members

15:05:34 From Jeffrey Neuman GNSO Liaison to the GAC to Everyone:

Yes, apologies I forgot to mention Closed Generics and the letter the Council got this past weekend.

15:05:48 From Sivasubramanian Muthusamy to Everyone:

Conceptually it could put on the global DNS hat that would be at least as tall as that of multilateral hats, be it that of a country --- any country --- or that of a region.

15:05:54 From John McCormac - [HosterStats.com](https://hosterstats.com) to Everyone:

With legislation, one approach does not work for all especially when some are in different jurisdictions.

15:06:15 From Cheryl Langdon-Orr to Everyone:

A lot to try and touch upon in our limited time @Jeff, we all recognise that I am sure

15:07:08 From John McCormac - [HosterStats.com](https://hosterstats.com) to Everyone:

ICANN is a US company but registrars and others may not be so the global hat idea might not work.

15:07:10 From Martin Sutton to Everyone:

Justine, you can no longer be termed as a newbie, only new gTLDs carry the term 'new' for extended decades!

15:07:33 From Sivasubramanian Muthusamy to Everyone:

@John it OUGHT to work

15:07:40 From Cheryl Langdon-Orr to Everyone:

:-) @Martin

15:07:43 From Jonathan Zuck to Everyone:

Yes, so much good stuff! DNSI, CPH, IJ, GNSO, framework, DAAR improvements, etc. Lots to sort out.

15:07:43 From John McCormac - [HosterStats.com](https://hosterstats.com) to Everyone:

@Siva In theory. :)

15:08:03 From Nathalie Peregrine - ICANN Org to Everyone:

Paul McGrady has not joined the call yet.

15:08:27 From Sivasubramanian Muthusamy to Everyone:

It is "company" to fit into the existing incorporation ecosystem, but it is NOT a company at all, it is much much bigger than a company or a corporation or an organization

15:09:03 From Tomslin Samme-Niar GNSO Council to Everyone:

@Justine, the Council is yet to accept the offer to meet with GAC on closed generics :-)

15:10:51 From Justine Chew to Everyone:

@Tomslin, :) I can only hope we can be inclusive and early on in any process

15:12:53 From Michelle DeSmyter - ICANN Org to Everyone:

Kind reminder when speaking, please mute all other devices and notification sound, thank you.

15:13:17 From Matthias M. Hudobnik to Everyone:

thxs mark ;)

15:13:34 From Sivasubramanian Muthusamy to Everyone:

Why is the Small Team a "GNSO Council" Small team? Doesn't a problem of this scale merit to bring various global study groups, research initiatives and abuse mitigation agencies, all together in an ICANN room to combine energies?

15:14:03 From Sivasubramanian Muthusamy to Everyone:

... to combine

15:14:08 From Maxim Alzoba GNSO Councillor (RySG) to Everyone:

because is formed out of GNSO Councillors, any GNSO Councillor can participate

15:14:35 From Claudia Ruiz - ICANN Org to Everyone:

When submitting a question or comment that you want me to read out loud on the mic, please start with a <QUESTION> and end with a "</QUESTION>" or <COMMENT> </COMMENT>. Text outside these quotes will be considered as part of "chat" and will not be read out loud on the microphone.

15:15:23 From Maxim Alzoba GNSO Councillor (RySG) to Everyone:

there is no issue of this nature, Compliance is about following the contract, not about inventing something

15:15:52 From Tomslin Samme-Niar GNSO Council to Everyone:

@Siva, the team is not intended to find solutions but to identify policy questions the GNSO Council can address within the confines of ICANN's bylaws

15:16:28 From Maxim Alzoba GNSO Councillor (RySG) to Everyone:

trusted notifier is a role and not a universal status

15:16:49 From Sivasubramanian Muthusamy to Everyone:

You don't build the compound wall first before drawing up a building plan for the house to be built @Maxim

15:17:00 From Maxim Alzoba GNSO Councillor (RySG) to Everyone:

and that role is per TLD, Registrar

15:17:23 From Maxim Alzoba GNSO Councillor (RySG) to Everyone:

it is like vendor - there is no universal vendor for anyone of everything

15:17:44 From Jonathan Zuck to Everyone:

Agree @Maxim. that's another variable. The CPH is not homogeneous.

15:18:02 From Dave Kissondoyal ALAC - Mauritius to Everyone:

J'aime bien la langue de Moliere

15:18:27 From Maxim Alzoba GNSO Councillor (RySG) to Everyone:

I meant that there are too many jurisdictions and the universal ideas just too broad, or do not work at all

15:18:37 From John McCormac - [HosterStats.com](https://www.hosterstats.com) to Everyone:

+1 Maxim

15:18:51 From Mark Datysgeld GNSO Council to Everyone:

@Maxim in general I think we have been tending towards supporting theme-specific Trusted Notifiers. That seems to be in alignment with current practices of the CPH as well.

15:19:14 From Maxim Alzoba GNSO Councillor (RySG) to Everyone:

@Mark, we should relay established agreed things, not wishes

15:20:00 From Mark Datysgeld GNSO Council to Everyone:

This is established in the TN Framework.

15:20:10 From Dennis Tan (Verisign) to Everyone:

@Mark ... some interesting reading on DNs by the I&JPN <https://www.internetjurisdiction.net/news/new-ij-outcome-on-trusted-notifiers>

15:20:18 From Maxim Alzoba GNSO Councillor (RySG) to Everyone:

it is an abstract role - not something universal

15:20:24 From Claudia Ruiz - ICANN Org to Everyone:

Friendly reminder to mute your device notifications in advance of the session please do the following:

On Windows devices this is called "Focus Assist" and on Mac "Do Not Disturb." In both, this can be found under the Notifications settings and a quick browser search will also provide a step by step instructions. Thank you

15:20:27 From Dennis Tan (Verisign) to Everyone:

15:21:40 From Jonathan Zuck to Everyone:

"Il est coupable de tout le bien qu'il ne fait pas." Voltaire

15:21:54 From Maxim Alzoba GNSO Councillor (RySG) to Everyone:

@Mark, for the clarity, please do not share own views as the Small group views

15:23:41 From Justine Chew to Everyone:

@Siva, re: small teams, it is the same with how CPWG sets up small teams to tackle issues.

15:23:41 From Sivasubramanian Muthusamy to Everyone:

@Jonathan "Who is guilty for all the good he doesn't do" on this day?

15:23:46 From Mark Datysgeld GNSO Council to Everyone:

@Maxim Unsure what's frustrating you. I am literally repeating what's in the <https://www.rysg.info/wp-content/uploads/archive/Final-CPH-Notifier-Framework-6-October-2021.pdf>

15:23:56 From Mark Datysgeld GNSO Council to Everyone:

Noted away

15:24:39 From Maxim Alzoba GNSO Councillor (RySG) to Everyone:

Please, speaking on behalf of RySG is for RySG members who were approved to do so.

15:24:52 From Vanda Scartezini to Everyone:

Thank you all for this interesting meeting ANEEL eSpecial for Justine organizing this meeting.

15:24:58 From Maxim Alzoba GNSO Councillor (RySG) to Everyone:

sorry, it was a comment for @Mark

15:26:37 From Mark Datysgeld GNSO Council to Everyone:

@Maxim The community should appreciate consensus documents arrived at by stakeholders, no? But still, something to take elsewhere instead of the space gently given to us.

15:26:52 From Philippe Fouquart GNSO Council to Everyone:

@Jonathan thanks for this, forgot about that quote. Indeed something to meditate especially these days (sadly)

15:27:10 From Jonathan Zuck to Everyone:

+1 Philippe

15:28:05 From Dennis Tan (Verisign) to Everyone:

@Mark ... I was part of the drafting team of the CPH TN Framework... I

15:28:27 From Jonathan Zuck to Everyone:

@Siva, all of us. I was trying to contextualize my comments about finding the right actor for all that needs doing.

15:28:31 From desiree_miloshevic_GNSO Council to Everyone:

It must be recognised that ALAC has contributed a lot to PDPs recently

15:28:38 From Mark Datysgeld GNSO Council to Everyone:

@Dennis Very interesting document, some pretty good context for the community.

15:28:41 From Dennis Tan (Verisign) to Everyone:

@Mark... (continued) I'll be happy to connect with you to go over it or address any concern or question you may have

15:28:53 From Sivasubramanian Muthusamy to Everyone:

@Jonathan +100, if you meant all of us.

15:29:08 From Cheryl Langdon-Orr to Everyone:

well noted @Desiree

15:29:16 From Mark Datysgeld GNSO Council to Everyone:

@Dennis that would be helpful

15:29:27 From Alan Greenberg to Everyone:

@Desiree, we have even initiated two PDP (through our ability to request an Issue Report)!

15:29:39 From Mouloud Khelif - ICANN73 Fellow to Everyone:

@Roberto + 1 (recently joined EURALO individual members)

15:30:28 From Sivasubramanian Muthusamy to Everyone:

@desiree Thank you. There is a plenty, plenty of more work that ALAC and GNSO could do in relative harmony

15:30:58 From desiree_miloshevic_GNSO Council to Everyone:

@Alan - I stand corrected and thanks for that reminder!

15:31:16 From Cheryl Langdon-Orr to Everyone:

both listed reports have extensive information/recommendations being implemented, but we will happily engage further if you have any follow up clarifications or questions on this work.

15:31:51 From Alan Greenberg to Everyone:

@Desiree, you were correct. Just adding another bit to our involvement.

15:32:39 From Cheryl Langdon-Orr to Everyone:

Time is against us today

15:33:03 From Jonathan Zuck to Everyone:

thanks guys! Can't wait to do this in person!
