Heidi Ullrich:@Judith, informing the leadership is different than all of LACRALO. Have the leadership informed LaCRALO?

Heidi Ullrich:It might be useful to have an email sent - perhaps by the TTF/LACRALO leadership. This would be a useful update and keep everyone in the loop.

Laura Bengford:Yes, maybe some on the EN list may want to take the transbot for a spin?

judith hellerstein:Mark is not on the call

judith hellerstein:I have heard that it has happened on the NCUC calls

Glenn McKnight:As a Ebook we could track the downloads. No idea how many people downloaded the PDF

Satish Babu:@Glenn, does this require a sign-up account?

Olivier MJ Crépin-Leblond:state your names when you speak as the transcript of today's call is going to look terrible.

judith hellerstein:Also reconfirm the members on the group

Glenn McKnight:Who is on the Captioning team?

judith hellerstein:That is fine with me. She is talking about the old committee who worked on the original pilot

Glenn McKnight:@satish , no need to sign up for the PDF.

Satish Babu:Thanks @Glenn.

Glenn McKnight:Asked if we do one for JOBERB with Lucid Press again

Justine Chew:Yup, house keeping to be done before throwing open house invites.

Yesim Nazlar:Welcome Carlton!

Carlton Samuels:Howdy do everybody

judith hellerstein:Since we first looked at these systems many have been improved so we need to refocus on them and see whehter the flaws we found were fixed

Dev Anand Teelucksingh:<https://community.icann.org/display/atlarge/Web+Conferencing> has the proposed structure of the report - its not seen in the printout shown in Adobe Connect

Glenn McKnight:We did a survey on web conference feedback a few months ago

Glenn McKnight:also on Mobile apps

Glenn McKnight:We created a page of conference tools

Glenn McKnight:but it needed updating

Glenn McKnight:some of them was missing practical assessment from end users

Justine Chew:@Glen, Yeah, what was the outcome of that survey?

judith hellerstein:@Glenn Exactly

judith hellerstein:Also we demoed Meetecho and that was great

Glenn McKnight:@Justine very good feedback on the mobile solutions

Glenn McKnight:I need to look for it

Justine Chew:I can help

Carlton Samuels:Let me ask a general question. DO y'all think all this detailed work is valued by ICANN? In the EMM model that is being proposed this is the kinda work that goes for \$150/hour, minimum!

Glenn McKnight:@Carelton we need to ask the obvious question if ITEMS proceeds do we have a future as a working group since they deemed the WG as redundant

Satish Babu:@judith, I can help out as well.

judith hellerstein:Thanks Satish

judith hellerstein:@staff can you write down Justine and Satish to our list

Mario Aleman:Sure, I can to coordinate. Noted, Dev.

judith hellerstein:Thanks @mario

Mario Aleman:You are welcome, Judith

Justine Chew:@Dev, what sort of load / user numbers can that free version support?

judith hellerstein:Would love to be able to do this

judith hellerstein:I thought it was limited to 100 users

Glenn McKnight:I need to go to the Leadership call soon. I posted the Magazine idea that grew out of the one page newsletter. Asking if we want to do one for Joberg?

judith hellerstein:@dustin can you help us with this

Dustin Phillips:Yes, I am happy to join this effort

judith hellerstein:@mario- Dustin has volunteered for this

Glenn McKnight:got to go, will catch up on my request
