I'd like to be included. And I hope people have taken note of the passage by the US House of Reps of a bill that would delay transfer of the IANA supervision from NTIA to ICANN by a year (who knows what will happen in the senate and/or whether it will be vetoed by the President)

Aida Noblia

I appreciate the designation made. However I request leave this working group. Complex topics, with times very short for making decisions on content and people that exceed my current knowledge and time . Thanks all.
