

Action Items 13 May 2008

R Vasnick, S Leite Herlein will form a subgroup that will be in charge of making a short presentation of the At-Large Summit at the public workshop. Hopefully, others will join.

The Summit WG will make sure the flyers are ready by the meeting and will distributed to other constituencies.

The Staff will draft a couple of blurbs about current ICANN topics important to the At-Large community for the questionnaire template. Topics should include Domain Tasting; IDN's and 3-5 others.

Staff: The questionnaires are still pending. It is an action item from the last meeting that needs to be carried over.

The Staff will make a sliding scale with different ALS participation levels.

The Staff will note that part of the budget for the Summit WG will be covered by sponsorship support.

The Staff will put up a Doodle Page for a next summit meeting in the last week of May.

The Staff will put up a Google work sheet with all the action items for this Working Group including who is responsible, due dates and a mechanism by which it is possible to mark the item as done.
