

# WG5 Background material

## Documents

All documents should provide a short overview about the given subject. It has to be as accurate as possible while aiming the the non technical meeting participant. Perfect documents consists of a single sheet of paper (one side) with a single graphic. Please do add external documents to the [WG5 Documents](#) page.

- "Some question and answers about DNSSEC" as [PDF](#) (document has been prepared by the Chair of the WG)
- "Lawful access restriction using DNS modification" as [LaTeX](#), [PS](#) or [PDF](#)
- "Parties involved in signing the root" as [LaTeX](#), [PS](#) or [PDF](#)

---

"Fast Flux" and "DNS rewriting industry" deleted from the wishlist. Fast Flux is already covered by various parties around ICANN. The industry topic is outside of ICANN's scope.
