Heidi Ullrich:Hi, All.

Tijani BEN JEMAA:Hello everybody

Murray McKercher:Good Morning From Toronto

Hong Xue:I hope you all could hear the sounds of explosion--well the fireworks for CNY.

Murray McKercher:@Hong Happy New Year :)

Alan Greenberg:Sorry I'm late. All now.

Hong Xue:Avri, please speak very loudly. I can hardly hear you because of the firework.

Avri Doria:(-;

Heidi Ullrich:Dashboard: <https://community.icann.org/display/newgtldrg/At-Large+new+gTLD+Applications+Dashboard+Workspace>

Heidi Ullrich:The RG call is Tuesday at 17:00 UTC

Heidi Ullrich:That is the latest I know, Avri

Heidi Ullrich:As noted previously, ICANN will be happy to work with this group on the technology for a survey.

Heidi Ullrich:Also, the New gTLD WG is scheduled to have an Outreach Evaluation meeting in Beijing Thursday, 11 April 9-10 a.m.

Nathalie Peregrine:Michael Palage has joined the AC room

Heidi Ullrich:The regular New gTLD WG is scheduled for Wed, 10 April 11:00-12:30 in Beijing.

Heidi Ullrich:Agendas are welcome!

Murray McKercher:@Heidi Where is the document from TiJani been posted?

Murray McKercher:Tijani's audio is unclear at my location...

Heidi Ullrich:@Murray, I will check.

Murray McKercher:@avri..Thank you for that reference..and help

Heidi Ullrich:I will post the document shortly.

Tijani BEN JEMAA:<https://community.icann.org/display/atlarge/Theory+Formation>

Heidi Ullrich:Thanks, Tijani!

Murray McKercher:@Tijani Thank you...

Nathalie Peregrine:Evan Leibovitch has joined the call

Evan Leibovitch:sorry.

Cheryl Langdon-Orr:we should perhaps note recent email to NCSG? lists by Kathy Kleiman on this matter of generics here as well

Evan Leibovitch:I'm aware of Kathy's letter. It's a legitimate PoV but requires a needlessly narrow interpretation of ICANN regs. From an At-Large PoV it is not far different from comments we have ourselves received.

Cheryl Langdon-Orr:just pointing it out

Evan Leibovitch:[http://www.circleid.com/posts/20130130\\_compliance\\_overhaul\\_a\\_non\\_start/](http://www.circleid.com/posts/20130130_compliance_overhaul_a_non_start/)

Hong Xue:if not put in contract, no way to enforce or make compliance. Or, through a public condemnation?

Nathalie Peregrine:That is correct, this is a call scheduled monthly

Evan Leibovitch:I'm not sure that having ICANN putting things into contracts that it is unable to enforce is a Good Thing.

Alan Greenberg:Evan, two issues. Putting unenforceable things in contracts is often bad. Putting things in that you COULD enforce but don't is an internal problem.

Nathalie Peregrine:Jeff Neuman has joined the AC room

Cheryl Langdon-Orr:that surely would be an ALAC matter Evan if it wants to have any WG/WT input on any such ALACAdvice

Cheryl Langdon-Orr:hand up

Cheryl Langdon-Orr:you got it Avri

Cheryl Langdon-Orr:agree Avri

Yaovi Atohoun:I am disconnected

Cheryl Langdon-Orr:yes Alan it is ALAC driven

Yaovi Atohoun:I am back. Thanks

Cheryl Langdon-Orr:yup Svri that would work

Cheryl Langdon-Orr:sorry Avri

Cheryl Langdon-Orr:CL is not from ALAC these days

Hong Xue:Thanks, bye.

Olivier Crepin-Leblond:Good process, Avri. Thanks

Cheryl Langdon-Orr:thanks all bye for now

Murray McKercher:Thanks to all..Great meeting :)

Yaovi Atohoun:Thank you all.
