16:03:02 From Vanda Scartezini : hi everyone. sorry not to be able to attend previous calls. always conflicting with some client's demands for meetings... glad I can do this time

16:13:46 From Judith Hellerstein : Did you notate my name on the list?

16:21:55 From Justine Chew : Is any other constituency proposing a use case that covers what Holly raises?

16:22:54 From Olivier Crepin-Leblond : I believe this is the case that's in discussion now

16:22:56 From Holly Raiche : I would be happy to provide examples of Australian institutions established by Government that have a consumer protection rule at law

16:23:26 From Justine Chew : My question has also been answered, thanks @Hadia.

16:23:38 From Hadia : thank you holly

16:23:46 From Olivier Crepin-Leblond : I have been dropped

16:25:01 From Olivier Crepin-Leblond : back on

16:25:04 From John Laprise (ALAC/NARALO) : Sorry for my tardiness

16:27:54 From Justine Chew : Yup, I am one such end-user who use(d) WHOIS to verify who registered a particular domain name.

16:28:37 From Justine Chew : So I may be forced to go through an intermediary in future. Sigh.

16:31:32 From Holly Raiche : Hadia is fading

16:31:33 From Vanda Scartezini : i am losing hadia

16:32:38 From Vanda Scartezini : certainly harms whole internet community

16:33:39 From Justine Chew : And apply GDPR to non-EU country folks!

16:33:54 From Justine Chew : Unnecessarily.

16:33:56 From Vanda Scartezini : yeaH Justine...

16:36:22 From Olivier Crepin-Leblond : Perhaps it should be mentioned on the EPDP call that going further than what GDPR requires is unacceptable for this working group and exceeds the working group's charter

16:37:06 From Jonathan Zuck : I think that's fine

16:39:22 From Hadia : Thank you holly - this is certainly an essential read

16:39:47 From Hadia : @olivier totally agree

16:41:39 From Vanda Scartezini : thanks Holly relevant points raised for new gTLD

16:41:52 From Hadia : Also the EDPB has also acknowledged ICANN's role with regard to consumer protection (in its letter to ICANN on July 5 2018)

16:42:05 From John Laprise (ALAC/NARALO) : and the subpro group is requesting clarification...

16:44:21 From Jonathan Zuck : critical path

16:44:53 From Holly Raiche : My proposal for next week's meeting is to further flesh out what should be the bottom line prerequisites for ALAC, and then our other priorities. Again, everyone, have a look at the Report, pages 15-25 for the recommendations.

16:45:07 From John Laprise (ALAC/NARALO) : concur holly

16:45:42 From Holly Raiche : Agree with Justine -

16:47:07 From Holly Raiche : We have made responses to the interim and final CT reports that we can draw on

16:48:03 From Justine Chew : @Jonathan, agreed and noted.

16:48:05 From Holly Raiche : Agree with JZ - we need to flesh that out

16:48:22 From Evin Erdodu : Noted @Holly as an AI

16:49:30 From Abdulkarim Oloyede : @ Holly, Please can you provide the link for the report

16:49:36 From Holly Raiche : Thanks Jonathan - and agree on the applicants support - a real issue

16:49:46 From Justine Chew : Sure, will keep both @Holly and @JZ in the loop re our work.

16:50:19 From Holly Raiche : Great - we will check with her as well

16:50:20 From Olivier Crepin-Leblond : Please let us know in the chat if you're interested in reviewing these Applicant Support documents

16:50:28 From Olivier Crepin-Leblond : Let Jonathan know

16:50:37 From Justine Chew : @JZ can you share those please? Ask Tijani?

16:51:05 From Abdulkarim Oloyede : @Jonathan, I can take a look, Please send

16:51:21 From Jonathan Zuck : Happy to share with all. Was just interested in getting someone to take a whack at boiling them down to some recommendations we might pass on

16:52:36 From Abdulkarim Oloyede : @ Holly, Please can you provide the link for the report

16:52:47 From Cheryl Langdon-Orr : Hardly a Master Plan

16:53:31 From Cheryl Langdon-Orr : No were travelling at a decent pace and Yes it is poorly scoped

16:54:08 From Holly Raiche : Folks - sorry - have to leave. Talk next week/

16:54:10 From Evin Erdodu : Will do @Holly

16:54:11 From Olivier Crepin-Leblond : dropped again

16:54:27 From Evin Erdodu : We will circulate the report after the call

16:54:46 From Jonathan Zuck : Sorry, didn't see you on the call Cheryl.

16:55:44 From Olivier Crepin-Leblond : back on
16:58:54 From Jonathan Zuck : of course the reason it has gone on for so long is because it was started too early. sigh.
16:59:51 From Jonathan Zuck : indeed
16:59:57 From Justine Chew : Lots of opinion divergence still afoot in SubPro which the WG members are grappling with.
17:00:14 From Justine Chew : *grappling with
17:01:32 From Jonathan Zuck : @Justine but Jeff is a freight train in many ways and I think we need to make sure this doesn't just become a case of attrition.
17:02:01 From Justine Chew : @JZ, noted!
17:02:31 From Hadia : sorry but I shall need to leave the call now Thank you all
17:02:43 From Olivier Crepin-Leblond : Thank you Hadia!
17:04:00 From Jonathan Zuck : ok Thanks.
17:04:32 From Justine Chew : The SubPro WG also hasn't deliberated on public comments re Applicant Support yet. From memory. But we have been consistent in raising JAS report outcomes in our statement to the SubPro Initial Report.
17:08:52 From John Laprise (ALAC/NARALO) : I do not support CW's assessment. Cheryl's role as co-chair puts her in a co-chair's role. Advocacy on the part of ALAC takes a back seat to managing a PDP process. Well done Cheryl.
17:09:07 From Justine Chew : @Chris, I think CLO is in a difficult position as Co-Chair. It is important for Co-Chairs to be neutral (even if you think the other Co-Chair isn't).
17:09:33 From Jonathan Zuck : That's why we have Justine in there to fight the good fight!
17:10:16 From John Laprise (ALAC/NARALO) : As VC for policy, I strongly support cheryl's work and thank her for it.
17:10:38 From Justine Chew : And all At-Large folks on SubPro are free to state and defend the ALAC positions.
17:10:40 From Cheryl Langdon-Orr : But I am appointed as Co Chair by the GNSO of course and not there on behalf of ALAC or At-Large at all,,
17:12:21 From Judith Hellerstein : I can help out on the financial plan
17:13:51 From Abdulkarim Oloyede : i was supposed to be added to Evolving Gov. of the rot Server System
17:15:32 From Justine Chew : @Abdulkarim, I suggest you go ahead and post your thoughts on the relevant wiki first.
17:16:11 From Abdulkarim Oloyede : @ justine, I already did
17:18:03 From Olivier Crepin-Leblond : There has been no response on the Technical ISsues WG :-(
17:18:09 From Olivier Crepin-Leblond : zero response
17:19:38 From Jonathan Zuck : @Abdulkarim, we'll take a look. Thanks!
17:21:26 From christopher wilkinson : Fraud prevention is an end-user interest.
17:21:58 From Jonathan Zuck : Yes, @CW, that's what I'm saying. That may justify our intervention
17:22:08 From Jonathan Zuck : Would you like to take a look at it?
17:22:38 From Justine Chew : ALAC has commented on IG)-INGO Curative Rights issue.
17:23:18 From Justine Chew : @JZ, agreed. Too much on the plate.
17:23:42 From Judith Hellerstein : on rights protection, I would ask Greg Shatan as he is vey active on this issue
17:24:54 From Olivier Crepin-Leblond : DROPPED again!
17:24:56 From Olivier Crepin-Leblond : sorry
17:25:02 From Jonathan Zuck : i'll be in LA so the later the better for me
17:25:39 From Olivier Crepin-Leblond : back on
17:25:43 From christopher wilkinson : @JZ Re Fraude - my interest is from personal experience. ;-(Not sure about another on-line commitment. There are better experts than I am. CW
17:25:50 From Cheryl Langdon-Orr : Correct
17:25:51 From Vanda Scartezini : yes Sebastien
17:27:12 From Justine Chew : SubPro, RPM, ATRT3, EPDP, and everything else!
17:27:20 From Olivier Crepin-Leblond : Thanks Cheryl --- AI for staff to look at SubPro calendar
17:27:28 From Olivier Crepin-Leblond : etc. :-)
17:28:39 From Justine Chew : I have no idea at this point
17:28:41 From Roberto : 19:00 fine with me
17:29:24 From Cheryl Langdon-Orr : Sub Pro starts at 2000 then that day
17:29:35 From Cheryl Langdon-Orr : but an hour is clear
17:29:43 From Jonathan Zuck : Sounds good. Evin and I will get that going prior to the call.
17:31:56 From Justine Chew : @JZ, great! TQ
17:32:12 From Evin Erdodu : @Olivier will do
17:32:32 From Olivier Crepin-Leblond : Thanks @Evin
