I have not yet looked into entertainment - no support from the ICANN Meetings Team. We would need to look at a local level.

Suggestions from a local ALS would be very much appreciated.

No alas dos juntas

No contacts for entertainment. Lia Hernandez is better contact for this. She has supported LACNIC and LACIGF before

Would be good to get people involved in the entertainment - dance lessons?

Given the need to fund the Summit, the optics should be a bit low key

This is the Policy Forum, so a low key event would be better in my view.
