

# Non-Commercial Users Constituency (NCUC)

The purpose of the Non Commercial Users Constituency (NCUC) is to represent, through its elected representatives and its interest groups, the interests and concerns of non-commercial registrants and non-commercial Internet users of generic Top-level Domains (gTLDs).

It provides a voice and representation in ICANN processes to: non-profit organizations that serve non-commercial interests; nonprofit services such as education, philanthropies, consumer protection, community organizing, promotion of the arts, public interest policy advocacy, children's welfare, religion, scientific research, and human rights; public interest software concerns; families or individuals who register domain names for noncommercial personal use; and Internet users who are primarily concerned with the noncommercial, public interest aspects of domain name policy.
