ALAC At-Large Review Implementation Working Group (ARIWG)

> **The ICANN Board accepted the At-Large Review Implementation Final Report (ARI Final Report) on 10 September 2020, the resolution can be found here.**

Scope and Purpose of the ARIWG.

The ICANN Board in their meeting on June 23rd 2018, within the Consent Agenda item (h) Organizational Review of the At-Large - Final Report and Recommendations, resolved that:-

> *(2018.06.23.13), the Board directs the ALAC to convene an At-Large review implementation working group that oversees the implementation process of the implementation proposals contained in the At-Large Review Implementation Overview Proposal, including through the development of a detailed implementation plan. The Board expects that the implementation plan will expand on the implementation steps detailed in the At-Large Review Implementation Overview Proposal, including through identification of metrics for each implementation, a concise overview of the current state for each of the ALAC's proposals, a clearly defined goal of the implementation objectives, and a methodology of how to measure implementation progress on an ongoing basis.*

> *(2018.06.23.14), the Board directs the ALAC to work with ICANN organization to include expected budgetary implication for each of the implementation steps into its detailed implementation plan. The implementation plan shall incorporate a phased approach that allows for easy-to-implement and least costly improvements to be implemented first, with those items with more significant budget implications addressed via subsequent budget cycles. Any budgetary requests should be made in line with ICANN organization's budgeting processes. The detailed implementation plan shall be submitted to the Board as soon as possible, but no later than six (6) months after the adoption of this resolution.*

> *(2018.06.23.15), the Board directs the At-Large review implementation working group to provide to the OEC semiannual written implementation reports on progress against the implementation plan, including, but not limited to, progress toward metrics detailed in the implementation plan and use of allocated budget.*
