This is a recommendation for partial support. No travel support is approved for this request. ICANN org agrees with LACRALO that it is important to provide the Latin American and Caribbean regional community a space for dialogue to explore “recent challenges facing the Internet ecosystem”.

ICANN org encourages LACRALO to work with the Policy Development Support function to develop a three-day virtual workshop; the workshop may be designed primarily for LACRALO At-Large Structures but should be open to the broader At-Large and ICANN communities.

Working with the Language Services team, the workshop may include remote simultaneous interpretation in English, French, Portuguese, and Spanish. LACRALO is required to submit a report to abr-reports@icann.org by 30 June 2022
