14:06:04 From Maureen Hilyard to Everyone:
So true!

14:06:07 From Gregory Shatan to Everyone:
I had to turn down the volume in my headphones....

14:06:16 From Maureen Hilyard to Everyone:
LOL

14:06:53 From Glenn McKnight to Everyone:
Pari I like your background... Wassily Wassilyevich Kandinsky

14:07:01 From Maureen Hilyard to Everyone:
The APRALO students did a great readout of the sessions they attended at our next regional meeting.

14:07:45 From Glenn McKnight to Everyone:
We hope to have a pre ICANN Washington session at American University in June and we hope to replicate the APRALO success with students

14:09:06 From Marita Moll to Everyone:
I think Glenn is talking about In Internet School of Governance in Washington. I do hope it happens.

14:09:55 From Marita Moll to Everyone:
School of Internet Governance -- got that a bit turned around

14:09:57 From Glenn McKnight to Everyone:
Nope Marita I am speaking about NASIG a couple of days before ICANN Washington in June at American University

14:11:35 From Marita Moll to Everyone:
Right -- North American School of Internet Governance - NASIG. There are really great for bringing in new members

14:13:48 From Maureen Hilyard to Everyone:
Great summary, Mr Chair

14:14:37 From Maureen Hilyard to Everyone:

14:14:55 From Marita Moll to Everyone:
Nope, well done

14:17:33 From James Van Leeuwen to Everyone:
Marita

14:23:48 From Silvia Vivanco - ICANN Org to Everyone:
Warm welcome to member of Telecommunities Canada.

14:30:05 From Jonathan Zuck to Everyone:
Compuserve costs could really add up!

14:31:49 From Marita Moll to Everyone:
Just want to say that the multistakeholder model is key to keeping that fragmentation at bay

14:33:45 From Maureen Hilyard to Everyone:
I agree Sebastian.. this was certainly a model for a good plenary session and topic

14:34:07 From Frank Anati to Everyone:
hi everyone Frank Anati from Ghana

14:35:26 From Jonathan Zuck to Everyone:
The current policy on plenaries is best described as "at least one," rather than "just one." If there topics are there, and there's interest, we can have as many as we want. There was just a movement away from fixed slots that had to be filled

14:36:56 From Marita Moll to Everyone:
absolutely @Pari. We do need to get the topic on the radar everywhere.

14:37:43 From Lavish Mawuena Mensah to Everyone:
Are the issues of Fragmentation more at the government level or the technical level?

14:38:21 From Marita Moll to Everyone:
EPDP -- expedited policy development process

14:39:00 From Bill Jouris to Everyone:
We can be fastER, without being fast in any absolute sense.

14:42:13 From Marita Moll to Everyone:
GNSO -- Generic Name Supporting Organization

14:42:31 From Glenn McKnight to Everyone:
African Proverb. You can go fast but if you want to go further go with a team...

14:42:56 From Marita Moll to Everyone:
Good one @Glenn

14:48:01 From Gregory Shatan to Everyone:
What about the ODB?

14:49:10 From Marita Moll to Everyone:
Lol @Greg

14:50:45 From Jonathan Zuck (Backup) to Everyone:
Or @Greg, the OBD (o bla di)

14:50:56 From Marita Moll to Everyone:
Getting pretty deeply into the weeds here. Hope everyone is still on board

14:55:36 From Gregory Shatan to Everyone:
We need at least one "advanced" policy discussion!

15:00:32 From Yuko Yokoyama - ICANN Org to Everyone:
Actually the motion was passed earlier today during the GNSO Council's meeting

15:08:56 From Maureen Hilyard to Everyone:
Im looking forward to Cancun and being able to attend a meeting in the same timezone as everyone else. Apart from KL every other ICANN meeting has been in a genuinely wful hour!

15:09:22 From Maureen Hilyard to Everyone:
awful

15:10:04 From Marita Moll to Everyone:
Subsequent procedures has been a process trying to fix all the things that didn't go as planned in the previous round -- which was a new process for ICANN -- so now there is some experience to work with

15:11:53 From Bill Jouris to Everyone:
Even just "hearing" what the rest of the organization is talking about can be really valuable.

15:12:07 From Maureen Hilyard to Everyone:
+1 Bill

15:12:28 From Nigel Hickson UK GAC to Everyone:
Yes; hope ALAC and GAC can meet in Cancun,

15:13:07 From Maureen Hilyard to Everyone:
Bringing them into discussions that impact us is just as valuable

15:14:58 From Marita Moll to Everyone:
DNS abuse in the iCANN world is phishing, pharming, spam when it involves malware

15:15:02 From Nigel Hickson UK GAC to Everyone:
Yes, agree great news re contract changes

15:18:54 From Marita Moll to Everyone:
Agreed @Greg -- it could be broader. I just wanted to make sure people outside of our echo chamber had a bit of background.

15:19:18 From Marita Moll to Everyone:
they might not have had before.

15:19:23 From Gregory Shatan to Everyone:
Much appreciated Marita. The "facts" are what they are -- until we change them....

DNSAI has just published a newsletter that provides information gathered from dns abuse reports
