

ALAC-At-Large Improvements Project Milestone Report Workspace

The final version of the [ALAC/At-Large Improvements Project Milestone Report](#) (09 October 2011; with the Staff introduction page) can be found [here](#).

- This version:
 - Has a modified Fig. C-3 compared to the figure in the report version ratified by the ALAC. The Fig. C-3 in this version clarifies further the process proposed by Improvements WT C, without requiring any substantive change to the report itself.
 - Has an updated Staff Introduction cover page, reporting the results of the five-day ALAC ratification (endorsement) vote on this Report, which began on 09 October 2011.
- This final version of the Report, with the modified Fig. C-3 but without the Staff Introduction, was submitted to the ICANN SIC and Board on 11 October 2011.

The ExCom has requested that At-Large members use this wiki page to record their comments regarding the ALAC/At-Large Improvements Project Milestone Report. Please use the "Add comment" function at the bottom of the page.
