

IRTP Part D Working Group - F2F Meeting

The Inter-Registrar Transfer Policy (IRTP) Part D Working Group will meet face to face at the ICANN meeting in Beijing.

It is scheduled for **Wednesday 10 April 2013 at 07.30 - 09.00 China Standard Time**; for other places see <http://tinyurl.com/dxfmfou>.

This is a face to face meeting of the Generic Names Supporting Organization's (GNSO) IRTP Part D Policy Development Process Working Group. IRTP is an existing consensus policy developed through the GNSO's policy development process that is currently under review. The WG is dealing with six specific Charter questions related to the IRTP; these include:

- whether reporting requirements for registries and dispute providers should be developed;
- whether additional provisions should be included in the TDRP (Transfer Dispute Resolution Policy) on how to handle disputes when multiple transfers have occurred;
- whether dispute options for registrants should be developed;
- Whether the universal adoption and implementation of EPP AuthInfo codes has eliminated the need of FOAs.
- For the complete Charter see <https://community.icann.org/display/ITPIDWG/3.+WG+Charter>.
