*To accommodate community's participation in other key sessions on Monday, 24 March, the Expert Working Group on gTLD Directory Services has decided to hold its session at 16:30-17:30 SGT. The Expert Working Group will share an update on activities, and will have a preliminary discussion with participants on identifying potential risks and benefits that might result if ICANN were to replace WHOIS by a next-generation system. Participants and all interested parties also will be invited to join the EWG on an interactive webinar post-Singapore to have an in-depth discussion on this topic. Webinar details will be shared in due course.*
