Silvia Vivanco:See the Agenda

Silvia Vivanco:and all the information will be recorded and will be available for you!

CW:England is part of Europe. UK is a MEMBER of the EU.

Olivier Crepin-Leblond:Yup!

CW:Seriously, I think that Atlas II should also contribute to breaking down the Silos. Some organisation of ALS participants in the OTHER Silos would be welcome.

Veronica Cretu (Moldova):I will try to be as much engaged as I can (also given that NomCom meeting in London is going to be a very busy one). However, I could join efforts prior to the Summit and provide input on a number of issues as well!

Silvia Vivanco:Thank you Veronica!

Silvia Vivanco:please write to at large staff with the WG in which you can help out

Veronica Cretu (Moldova):@ Silvia - indeed, I will

Silvia Vivanco:Thank you Veronica!

Silvia Vivanco:correct Olivier the visibility of At large will increase within ICANN and this will help to break silos

Silvia Vivanco:including within ICANN

CW:That is really good news Olivier; do the ALS know about that? Shall we ask them to indicate their priorities: GNSO, ccNSO, GAC etc.

Olivier Crepin-Leblond:we could ask them -- or perhaps when we come face to face in London?

Olivier Crepin-Leblond:but that's a good suggestion Christopher. The Communications WG should check that out

CW:Your call. But they should be kept busy with the real ICANN business ...

Veronica Cretu (Moldova):Do we have any impact indicators set for ATLAS II?!

Olivier Crepin-Leblond:That will be the job of the ROI WG to set those Impact Indicators

Silvia Vivanco:EURODIG: <http://www.eurodig.org/eurodig-2014/programme-overview>

Olivier Crepin-Leblond:ROI = Return on Investment

Silvia Vivanco:speak closer to the mic Sandra

Veronica Cretu (Moldova):Thanks, Olivier, this is very important given that it connects to a longer term vision/strategy and our efforts should be aligned to those and to the indicators we have/want to achieve.

Oksana Prykhodko:For CROPP participants - who has to book hotel? We ourselves or ICANN?

Wolf Ludwig:As said before, this will be done by ICANN with the travel booking.

Oksana Prykhodko:thank you, Wolf

Yuliya Morenets:Yes, indeed. It's what was said by Janice, ICANN

Yuliya Morenets:you should be contacted directly.

Yrjö Länsipuro:@Sandra pls write the hotel info in the chat or send it by e mail -- audio was weak

Oksana Prykhodko:ok, thank you
