

How to use the Wiki Translate Plugin

Introduction

During the testing of ICANN's New Prototype Wiki Public Comment Forum in January 2012 (see <https://public-comments.icann.org/x/c4GZ>) a translation plugin was installed and tested on that wiki Public Comment Forum.

Feedback was generally positive on the results achieved and ICANN At-Large Staff in conjunction with ICANN's IT staff have completed the installation of the translate plugin on the LACRALO wiki and other At-Large wiki spaces in May 2012.

How to translate wiki pages

The screenshot shows the ICANN At-Large Wiki interface. The top navigation bar includes links for Dashboard, Board Res, Accountability, Language Services, Projects, GSE, SOACIE, At-Large, Cross Comm, GNSO, ccNSO, and A. The main content area is titled "Calendar" and includes a "Translate" link. Below the title, it says "Created by Dev Anand Teelucksingh, last modified on Nov 07, 2014". The page content describes the At-Large calendar and lists the following groups:

- the At-Large Advisory Committee (ALAC)
- the ALAC Leadership Team (formerly known as the ALAC Executive Committee or ALAC ExCom)
- Regional At-Large Organisations (RALOS) and
- At-Large Working Groups (WGs)

The bottom section shows a calendar for June 2015 with events listed for various days.
