13	Hadia Elminiawi *	Individual	Hadia Elminiawi SOI	DOI	I do not intend individually to apply for funding through the mechanism set by this group, neither does my employer NTRA, nor the center that I lead the Domain Name System Entrepreneurship Center (DNS-EC). However, I would like to mention that the DNS-EC is a partnership between ICANN and NTRA to foster the domain name ecosystem in the region, where NTRA incubates the center and hires its employees. The center is currently a department within NTRA, however if the DNS-EC legal position changes and is no longer a department within NTRA nor related to NTRA, then I don't know whether or not DNS-EC will apply for funding through the mechanisms that is to be determined by this group.

18	Jonathan Robinson	GNSO	Jonathan Robinson SOI	DOI	No
19	Marilyn Cade	Individual	Marilyn Cade SOI	DOI	I do not know. My client base engages in work that directly impacts ICANN, such as SSR in the Internet, and the DNS in particular; awareness about ICANN in developing countries, and larger threats and risks to the Internet that are applicable to ICANN, and ICANN activities that occur at the national level in developing countries. I act as an advisor to several ICT associations and a couple of NGOs engaged in capacity building and enhancing engagement in developing countries. Their interest to apply for funding will depend on what the funded categories are. In my individual capacity, I do not plan to apply for funding. I am applying to participate in the CCWG because I think that the discussions will benefit from additional input from business users, and someone who has been involved in ICANN since its inception.
