Herb Waye Ombuds:Must log out for 10 minutes to move to a conference room brb

Herb Waye Ombuds:back :-)

avri doria:i expect tha diversity vs. policy is nto the only trad off possible in the budget.

avri doria:i worry about stamtement that say if you want diversity that may be at the cost of doing policy.

Rafik:we cna make the recommendations, itemize them in more details and give some weight or priority

Rafik:feasability is related to implementation, at this level we are more talking about requirements

Renata (laptop):hola sorry about the delay

Renata (laptop):very good to see captioning

avri doria:am i right that this was a survey that 10 people respondend to?

avri doria:if so, ratherr small smaple size. though good to have these indicators.

Renata (laptop):yes it's a very small size. But it was done on a small island state event so I guess that can be weighed.

Elizabeth Andrews:Hi Fiona - Just to clarify, this particular survey was sent to the participants of the Fiji workshop that is being held this week. It was not comprehensive across GAC, but will be used to gather more data regarding future underserved regions workshops in other areas.

Elizabeth Andrews:(hence the small sample)

avri doria:i am not disparaging the tudy, just indicating its significance may be constrained.

Renata (laptop):i've sent a comment about language diversity and connectivity as barriers - they are very important to pay attention to. Even in this research there is a language diversity not covered by ICANN (or many organizations). The connectivity issue is also important, taking into account small island states and farther regions from big citiies will have more challenges participating. This should be covered in the regional diversity discussion.

Elizabeth Andrews:The survey included examples of feedback from the Nairobi workshop that were potentially relevant; however, the survey was sent to the Fiji participants

Elizabeth Andrews:This was the specific question: "A recent, similar workshop took place in Nairobi, Kenya. There, participants found valuable the following information. Check all that you feel would be useful to you:"

avri doria:if the same study is done again and again, the combination and longitudial may end up useful.

Rafik:such survey can give some hints for direction to explore but it is not necessarily authoritative

Renata (laptop):pls read my comment as I am on phone and cant make question

Renata (laptop):about the sample, I understood the data from Nairobi was referred to the sample of respondents in Fiji

FIONA ASONGA:I can hear you Julie

Ergys:the plan is to conduct this survey across other regions for future workshops; we will have some data to compare over time eventually

Renata (laptop):Ergys sounds very interesting

Bernard Turcotte Staff Support:Time check - 15 minutes left in call

Bernard Turcotte Staff Support:bye all

Lito Ibarra:Thanks. Best regards

Renata (laptop):Thanks

Rafik:bye all
