Notes (including relevant portions of chat):

10 Participants at start of call.

1. Roll call

2. Review of action items

- Rafik Damak – Send a reminder to the group to read the draft proposal and make comments.

Rafik Damak - TBC

3. Gender Diversity Survey Review

Ergys Ramaj - (background and presentation of the draft survey document)

Rafik Damak - is this just to gather information or do you think you will use this to make recommendations - trying to avoid duplication.

Ergys Ramaj - the community has been calling for additional information on this so there can be an informed discussion on the topic. If useful we may use similar surveys on other areas of diversity - but mostly about gathering information.

Avri Doria - Questions dealing with leadership - curious as it seems as long as someone is in any leadership position, even entry position in leadership, that there are no limitations to accessing leadership.

Renata Aquino Ribeiro: The survey is lacking any question or perspective on young women. It is fundamental to measure this aspect as gender diversity is threatened greatly by power structures which ally w/ age and it also impacts on training and leadership perspectives. Suggestion Were you part of youth engagement programs? Yes/No Are you a young participant and do you feel that this has an impact on gender and leadership? Mostar menos

Ergys Ramaj - we are trying to measure perception. Will be modifying to questionnaire wrt this.

avri doria: thanks - had not gone back to the doc after commenting

Julie Hammer - Survey could be confusing to people who are not following our work of that of the CCWG-Acct. and as such could be confused with our work. Should be clear in the introduction that this is ICANN staff doing this for the community and that the results will be shared with us.

Ergys Ramaj - will do.

Sebastien Bachollet - a little confused this survey seems to be more about EQUALITY vs DIVERSITY. We need equality one man for one woman.

Ergys Ramaj - sometimes questions on gender go to equality but it should not be binary - its about gender diversity.

Rafik Damak - We have had this discussion before.

avri doria: i hope we do not start using a transgender as an excuse for lack of parity. that would be too cynical by half.

Sebastien Bachollet - Agree with comment by AD. We are not yet with equality yet we want to go further than that - I am just suggesting that we first have equality between men and women as a first step without stopping the work there - but just this would be a very important step.

Avri Doria - this was not my meeting - very ok to deal with transgenders for us. It is good that we are doing this but to use it to not understand a lack of parity.

Rafik Damak - can we clarify between Parity and Equality.

Avri Doria - Equality gets to be confusing and is used in many ways - people get treated equally - looking at a Board over a 10 year span then men and women would be about the same numbers. fuzzy notion .

renata aquino Ribeiro - Just wondering about the age perspective. should look at age and gender diversity as this is very important in the survey.

Ergys Ramaj - Are you asking we include a question about age?

Renata Aquino Ribeiro: yes, about young women participants in the community

Renata Aquino Ribeiro: and how gender impacts that participation (many sub-questions regarding youth leadership training).

Ergys Ramaj - would need to define Youth if we go there which is another dimension of diversity so this would be hard given the survey is not only for women - also the exit survey questions deal with this in part.

Renata Aquino Ribeiro: Understand but understanding young woman participating in the community. So this is important - not looking at this would leave out important data and would help align this with how power structures.

Ergys Ramaj - would defer to the group. We could cover this in further surveys when dealing with age. question 5 does deal with age.

Renata Aquino Ribeiro- this survey has to properly identify issues. Identification as a minority group in the survey - there could be elements of diversity which could be explored.

Avri Doria - how can we include these points in the survey - in the clearance question you could expand a bit to get more information. could also include one on other forms of diversity. Re question about barriers - you include more things.

avri doria: just not sure all of the age and origin should be optional.

renata aquino: +1 on race too

Nadira AlAraj: +1 to include the different demographic diversity questions to do coronatio

Rafik Damak - Good suggestions and we can add comments in the Google doc for this. When are you planning to finalize this survey.

Ergys Ramaj - AD very useful - on timing we would appreciate if comments could be in by then end of next week. Looking to have a full report in late June or early July.

Rafik Damak - Action Item will send a reminder to the list.

avri doria: a lot of the questions are in the optional exit survey but some should be brought into the main part of the q for relation and correlation analysis

4. Draft Report Discussion https://docs.google.com/document/d/112cGcx8nNvYSg_ZMUVnoC2t0VKb4ATQVTXxcxYILrXc/edit
