07:51:13 From Sara Caplis : Today's agenda can also be found at <https://community.icann.org/display/CPMMB/CCWG+on+IG+Teleconference++2018.05.23>

08:03:10 From Judith Hellerstein : HI All. Glad we are using zoom

08:04:20 From collin kurre : hi everyone, good afternoon

08:13:15 From collin kurre : we can hear you

08:15:34 From mscade : Apologies to be delayed to attend.

08:16:41 From Olivier MJ Crepin-Leblond : welcome Marilyn. Currently on Agenda Item 2

08:17:07 From mscade : Thanks, yes, catching up.

08:33:04 From Judith Hellerstein : Is this cybercrime convention sent as a input to their regional group?

08:35:20 From Greg Shatan : Sorry I need to run. Brian Beckham at WIPO is an active ICANN participant and can certainly provide further info.

08:35:25 From mscade : this is a UN convention. ITU is a separate issue.

08:35:41 From nigel.hickson : @Greg; thanks will circulate the proposal on Geo names; agree early days

08:36:01 From nigel.hickson : We work closely with Brian Beckham

08:41:29 From Israel Rosas : Hand.

08:42:18 From Judith Hellerstein : one will be November during the Plenipot and one will be in December

08:43:09 From Israel Rosas : hand again

08:43:15 From Judith Hellerstein : Marilyn is correct. we need to discuss the proposal

08:45:04 From Judith Hellerstein : Like that Idea of this. The status of Internet Governance since 2006. I gave a presentation on this at the North American school of Internet Governance

08:46:33 From collin kurre : The "taking stock X years later" is a recipe that's been done many times in the past. I also wonder what would make this ICANN specific?

08:48:15 From mscade : What have we achieved since 2006? What are the next challenges for the next years until 2020? Adding in AI, IOT, Big Data, youth engagement. Inclusion of the elderly and under connected...

08:48:52 From Israel Rosas : hand

08:50:05 From mscade : It's not ICANN putting this forward. It is the CCWG -IG.

08:50:50 From mscade : We are not ICANN, we are trying to advance understanding about how ICANN exists within a larger IG ecosystem.

08:53:00 From mscade : Perhaps it is good to also understand the limitations /themes already identified by the MAG? Can someone post that? ICANN will have an Open Forum so let's not duplicate ICANN.

08:54:06 From collin kurre : I'm not sure if this is what you're seeking, but here's the link to the call for proposals: <https://www.intgovforum.org/multilingual/content/igf-2018-call-for-workshop-proposals>

08:54:19 From collin kurre : and the form for submission: <https://www.intgovforum.org/multilingual/content/igf-2018-workshop-proposal-form>

08:55:22 From Israel Rosas : there's a list of \*suggested\* themes and sub-themes identified by the MAG:

08:55:25 From Israel Rosas : [http://www.intgovforum.org/multilingual/index.php?q=filedepot\\_download/6119/1205](http://www.intgovforum.org/multilingual/index.php?q=filedepot_download/6119/1205)

08:55:45 From Israel Rosas : but, anyone can suggest new themes and/or sub-themes

08:55:45 From Olivier MJ Crepin-Leblond : Thanks @Israel

08:56:22 From collin kurre : +1, it can be very effective to angle for inclusion in existing sessions rather than proposing something new (particularly this late in the game)

09:07:51 From collin kurre : thanks all!

09:08:13 From nigel.hickson : Thanks all
