# IGF 2018 Workshop: Town Hall to take stock of achievements to date on key Internet Governance issues

This year's IGF Themes and sub-themes.

From Marilyn Cade's email:

"proposal be a town hall to take stock of achievements to date on key issues identified in early days, and a modification was offered to add in looking ahead  to such topics as IA, IOT, Big Data, etc.

(...)

I'd like to propose that we invite the two senior Ambassadors who attended in Brazil as co-moderators and do a looking back and looking ahead 90 minute workshop, but without panelists, using the NetMundial 'from the floor' approach."
