Matt? :) matthew shears:Ithink that the accountability proposal is also asking for input from commenters on the issue of human rights in the bylaws in parallel Megan Richards, European Commission:thisis what the report seems to say but perhaps this is evolving: • W ork plan for Work Stream 2 to: o Enhance diversity and the culture of transparency within ICANN o Further address concerns about community accountability. The 2nd Draft Report includes a recommendation for regular structural reviews of SOs and ACs to assess their accountability towards their participants as well as towards the stakeholders they are designed to represent.o Elaborate on a Commitment to human rights in the ICANN Bylaws. • Details on an implementation plan for Work Stream 1, including a Bylaws drafting process. Megan Richards, European Commission:sorry- wrong cut and paste !! apologies matthew shears:interms of strategy it will be important for a number of diverse entities to input on this inthe public consultation- the comment review process does not weight the inputs so more inputs on issues of concerns such as HR is important Avri Doria:iplanto put in my own comment on the issue. Avri Doria:both HR related and other. matthewshears:+ 1 matthewshears:Ithink we have to leave a lot of this to WS2. If we start to get into the detail the bylaw may get very long and cumbersome Tatiana Tropina:Ithink it is better to avoid detailing bylaws in order to avoid long legal debates which can get us to nowhere and delay the changes we want matthew shears:yep Tatiana Tropina:*again I don't know how far this discussion went before, may be I am just repeating what has already been discussed many times Megan Richards, European Commission:perhaps its a problem with the mike - inanutshell I agree with marilia's comment Maryam Bakoshi:Hi Megan, please could you provide your number for dial out Amr Elsadr:@Matt: RE: HRs in WS2, that sounds logical to me, so +1. For now, some form of commitment from the CCWG to include HR issues in WS2 wouldn't be such a bad thing though. Megan Richards, European Commission:My number is +322 2962443 but marilia said exactly what I was going to say - Avri Doria:The Corporation shall operate for the benefit of the Internet community as a whole, carrying out its activities in conformity with relevant principles of international law and applicable international conventions and local law and, to the extent appropriate and consistent with these Articles and its Bylaws, through open and transparent processes that enable competition and open entry in Internet-related markets. To this effect, the Corporation shall cooperate as appropriate with relevant international organizations. matthew shears:shame we can't just asterisk the bylaw above after the word conventions and add if need be UDHR and ICCPR Tatiana Tropina:@Matthew, it's articles of incorporation I think :) matthew shears:thanks Megan Richards, European Commission:the articles of incorporation cover all Avri Doria:... cover all that are relevant ... applicable ... and to the extent appropriate consistent with the bylaws. Tatiana Tropina:Yes, in a general way Megan Richards, European Commission:the Articles take precedence over the bylaws - the bylaws can limit the application or clarify the specific provisions Tatiana Tropina:+1 to Megan. I see any changes made to bylaws as clarification of this general commitment Megan Richards, European Commission:ICANN has agreed to apply the applicable and relevant provisions by virtue of the provisions of its Articles of incorporation - public international law and its application is a separate issue and not what we should be discussing here matthewshears:agreed with simple phrasing for bylaws Avri Doria:those are not my concerns, as much as the concerns of others. I support the most general language. Tatiana Tropina:I actually don't see any way to make other than simple wording of bylaws Megan Richards, European Commission:am responding in the chat then Megan Richards, European Commission:we should ensure that the work is not duplicating that done in GAC HRWG and other fora matthew shears:good point- have the GAC discussions evolved since the meeting in BA? Megan Richards, European Commission:not yet but would be a pity if the various groups were to either duplicate or heavens forbid contradict that of each other Avri Doria:Isn't the GAC having a similar definitional issues as the WP4 is having Megan Richards, European Commission:thanks and apologies for no voice :-) matthew shears:thanks Niels, all Tatiana Tropina:thanks! Niels ten Oever -Article19:Thanks all! MaryamBakoshi:Thank you all

2015	- - Introductions - - Report - - Comments? - Issue on behalf of who? - Approval procedure - - Sessions in BA - - Update on other community activities		Maryam Bakoshi: Dear all, welcome to the ICANN and HR call on Friday 29th May 2015 Maryam Bakoshi: Rafik Dammak and Niels Ten Oever have joined the meeting Maryam Bakoshi: Welcome Marilia Maciel: Hello all! Maryam Bakoshi: Welcome Marilia rafik: non Maryam Bakoshi: Monika has joined rafik: maybe she is shy :) Monika Zalnieriute: xxxxxxxxxxxxxxx Monika Zalnieriute: I am sorry it is here :) Monika Zalnieriute: haha, I read that I am shy here :) Monika Zalnieriute: ok, I wait for the call then! Niels ten Oever - Article 19: Monika, can you pick up? Monika Zalnieriute: I still did not get a call rafik: who joined? Maryam Bakoshi: Pranesh Prakash Monika Zalnieriute: but I can hear you though, Maryam Bakoshi: Vipul Karbhanda Maryam Bakoshi: have both joined Monika Zalnieriute: maybe someone know, what I should click to make my mic work? Niels ten Oever - Article 19: Click on the mic icon Alexandra: hi! Maryam Bakoshi: Alexandra please could you state your full name for record purposes. Thank you Alexandra: Maryam, it's Alexandra Kulikova Marilia Maciel: Please start the recording Monika Zalnieriute: yes, I can, Marilia Maciel: Please, can we let the ppl on the phone introduce themselves? Alexandra: I'm not sure I won't be able to speak though unfortunately Marilia Maciel: Please, mute your mics rafik: Niels should disable the mic for his Adobe Connect :) Marianne F: Hi all, there is feedback so we are hearing Niels twice Marianne F: You're welcome Monika, apologies for the lengthy email nonetheless! :) Marilia Maciel: What is the deadline to comment? Niels ten Oever - Article 19: Depends if we want to print it nicely Niels ten Oever - Article 19: If we want it to be gone via editor, design and print, we will need to have it done by Monday rafik: @Niels it is a working document for CCWP to continue the discussion, expecting the CCWP to produce its first deliverable Niels ten Oever - Article 19: Indeed, so we need to agree on an approval procedure (point 1.3 :)) rafik: I would see it as an "issue report" not necessarily needing an approval, it's more research work to give input Niels ten Oever - Article 19: Let's discuss this under the next point Pranesh Prakash: I wouldn't make a strong defence of HR, who will? :-) Having said that I don't think there's a need to establish a duty to protect on ICANN's part. Marianne F: Of course, they do have this responsibility just we need to proceed step by step. So if the point is made in a note then it is there on the record to be used and referred to later if need be (just reiterating verbal point in writing) Niels ten Oever - Article 19: +1 Pranesh Prakash: +1 Maryam Bakoshi: Nigel Hickson has joined Marilia Maciel: Audio issues here. Will have to go out and enter again, sorry Marianne F: +1 from me for leaving it in as an example; just to edit and tighten up for now and indicate there option of more detailed analysis later Pranesh Prakash: +1 to Marianne Monika Zalnieriute: Guys, I agree to have it as an example: would you like to have it a shorter part though for now? Monika Zalnieriute: in this particular report? Monika Zalnieriute: + Lee; it might be too much stuff. Monika Zalnieriute: All at once. Marianne F: Hi, if the feeling is to keep it in then perhaps as a note? But Lee is pointing out the timing issue so I would defer to those who know ICANN better than I do Marianne F: Please mute mics when typing! :) Marianne F: I find it hard to leave it out Alexandra: Agree that the UDRP part might draw attention from the substantial issues into the first part in the shape it is now Alexandra: I might have missed it - could someone remind again how GAC is going to be engaged? Pranesh Prakash: Apologies. I have to leave now. But would just like to reiterate that we must (strategically) bear the burden of being the people who take positions on sensitive commercial issues. If we don't, no one else will. We can build bridges after we have some rough position. Marianne F: +1 from me Pranesh; point well taken, cheerio! rafik: @Alexandra we have some GAC members in the CCWP, it has its own working group and Lee is basically doing the liaison. maybe Lee can elaborate here Marilia Maciel: Maybe we could move to the session in BA? Monika Zalnieriute: Sol would like to get the idea what do we do?: please type in here, so I could briefly have an idea who is for LEAVING the UDRP and who is for TAKING OUT Niels ten Oever - Article 19: The consensus seems to be that it could be mentioned as an short example, but we leave our the longer expose. Alexandra: sorry Marilia Maciel: Yes, that is my feeling too Alexandra: I'll type rafik: @monika in few words more coming work for you :) Monika Zalnieriute: Ok, how long - and how detailed - simply a page or so or approx how long? Niels ten Oever - Article 19: Shorter Marianne F: Mention it, keep it short as a concrete example vs. a full expose. Monika Zalnieriute: yes, yes, so simply as a reference, you mean - that's it? Monika Zalnieriute: shorter than a page, you mean? Niels ten Oever - Article 19: Yes Monika Zalnieriute: simply like an example mentioned in a sentence? :) Alexandra: guys, just a quick comment/observation: an elaborated description of this one case study now will definitely attract criticism from Russian GAC representatives - as at the Singapore meeting they were very vocal on the Crimean domains issue from the HR perspective. It's a very debatable issue in terms of how exactly that relates to the ICANN remit, but if the HR talk starts with UDRP in detail I can expect the reaction :) what I mean is that there seems to be a strong link for them between ICANN and that incident in the HR context. I can expect there will be efforts to stick it in Marianne F: I see your point but won't there be this sort of push back anyway? If this example really could become a red herring (forgive the pun) then leave it out for now. We can always put it back in... Alexandra: yeah! guess you're right. But it would be good to at least formulate some stance on the issue from the group? or have a longer least of potential case studies for future Alexandra: list rafik: there will be push back for many topics, that is why we have to work on consensus and "educate" Marilia Maciel: Yes, open to collaboration/endorsements rafik: we need to get CCWP to have ownership on it and we need deliverable Marianne F: agree; send the final version of the report to the CCWP for comments. People comment best when there is something concrete to comment on. rafik: the public session is not clashing with important sessions rafik: kathy is not coming to BA Marilia Maciel: I would go further and ask them for their assessment Marilia Maciel: some sort of responsibility to speak Marilia Maciel: great Marilia Maciel: Perfect Alexandra: thanks Niels Marianne F: Thanks Niels, thanks all for a great meeting Marilia Maciel: Thanks all Marilia Maciel: Bye all! Alexandra: thank everyone and bye!

The real needofHR consideration in ICANN is on how the policies affect domain name holders. This is done using the governance mechanisms via the contracts between ICANN and the registries and registrars, as well as the contracts between the registrars and the registrants. AmrElsadr:I'mnotsayinthat CSR should be excluded, but it shouldn't dominate the focus of the group.
